**Rules for Awarding Fee Reduction Scholarships**
- The University of Western Australia will offer scholarships to high achieving Indian students who accept offers to commence the specified masters programs in 2016, 2017 or 2018.

- For GPA transcripts, the mark calculated by the Indian University over the complete degree is used to determine eligibility.

- For non-GPA transcripts, a percentage for the final two years, including all failed attempts is used to determine eligibility. The marks achieved from all units attempted are added and then divided by the total marks achievable. The result is then multiplied by 100 to calculate the percentage for the purposes of these scholarships.

- The scholarship will be offered to students for the total duration of their studies at UWA in the course (as stated on their offer letters).

- The reduced fee only applies if students maintain a 100% load (normally 48 points), and will not be extended if a student does not complete within the CRICOS registered duration of the course.

- The scholarship is conditional on a formal assessment and written offer from the University’s admissions team in Perth.
