Make your mark in the global community

A postgraduate degree from The University of Western Australia will put you in the best position for future success. Graduate qualifications are fast becoming an expectation in many sectors, particularly for management and leadership positions and for anyone aiming for an international career. Now is the time to consider your next step towards realising your career aspirations.

Ranked in the top 100 of universities worldwide, UWA represents the best of what a university aspires to be: a community of engaged, dedicated and innovative people working for the benefit of society through research, education, culture and service. Together, we pride ourselves on providing you, as a future leader of the global community, with the skills and knowledge needed to excel in your field.

As a graduate student at UWA, you will be part of an inspiring, research-intensive environment, gaining real-world experience and industry knowledge. From day one of your degree, you will learn from renowned researchers and industry leaders, recognised globally for their outstanding achievements. Their aim is to equip you with the skills needed to ensure you excel in a highly competitive international workplace, while you study alongside like-minded, passionate peers.

Our University is inspired by our motto, Seek Wisdom. Real wisdom comes from seeking to understand yourself and the world around you. That is why we provide you with a learning environment that goes beyond the classroom. This will help you become the best person you can be, as we believe every individual has the ability to create knowledge and contribute to the progress of humankind.

UWA is a truly global university ranked in the world’s top 100 but our goal is to aim even higher. We aspire to be recognised as one of the world’s top 50. If you are determined to make your mark on the world, join us by enrolling in a UWA postgraduate degree.

VICE-CHANCELLOR, PROFESSOR PAUL JOHNSON
UWA AT A GLANCE

GLOBAL RANKINGS

- 24th in Life and agricultural sciences
- 51-75th in Clinical medicine and pharmacy
- 101-150th in Chemistry
- 88th in 2014 ARWU

STRONG RESEARCH ALLIANCES

PROVEN STANDARDS

- One of only ten universities worldwide to be awarded a Five Stars Plus rating in the QS Stars University Ratings.
- The UWA Business School holds international accreditation from both the European Quality Improvement System (EQUIS) and the Association to Advance Collegiate Schools of Business (AACSB).

Over 160 student exchange agreements across six continents

108,000+ graduates, 12,000+ of whom live overseas across 100 countries

Established: 1911
5km from Perth city
Campus size: 65 hectares

73% of academic staff have a Doctoral qualification

| Number of undergraduate majors | 70 |
| Total student enrolment         | 25,489 |
| International students from across 109 different countries | 5013 |
| Number of clubs and societies   | 80+ |
| Number of postgraduate programs | 148+ |
When you study a postgraduate degree at UWA, you will be educated by world-renowned academics, study with like-minded peers and create professional connections worldwide.

The University has formal agreements with nearly 230 institutions around the world including Zhejiang University in China, Anna University in India, the National University of Singapore (NUS), the University of California in the United States, McGill and Queen’s Universities in Canada, University College London and Uppsala University in Sweden.

Along with key institutional partnerships, the University also maintains strong strategic partnerships with industry, the professions and government.

This ensures the University is responsive to industry and society needs, continually developing new graduate courses to meet the demands of a rapidly changing world.

**Study at a world top 100 university**

- Ranked 88th in the world according to The Shanghai Jiao Tong University’s internationally recognised Academic Ranking of World Universities (ARWU).
- Ranked first in Australia and 24th in the world for Life and Agricultural Sciences (ARWU).

**Leading the way in research**

- UWA is a research-intensive University and the only West Australian member of the internationally recognised Australian Group of Eight, a coalition of the nation’s top research universities.
- UWA is one of 16 international research-led universities that are members of the Worldwide University Network (WUN).
- UWA attracts the highest level of research income of any Western Australian university with more than 70% of all national competitive funding to the state coming to UWA.
- UWA has over 130 research and training centres with links to industry and government, both locally and nationally. The acknowledged strength of UWA’s research output makes the University appealing to researchers of international standing, many of whom head major research centres that have global links.
- Together, the University’s high calibre researchers and graduate students are solving some of the world’s most critical and challenging problems, from spinal cord injury repair to ensuring the stability of 100,000 tonne offshore oil or gas platforms. UWA has determined a number of strategic research areas in consultation with key stakeholders:
  - Plant sciences and sustainable food production;
  - Ecology, evolution and the environment;
  - Energy and minerals;
  - Indigenous knowledge;
  - Medicine and health; and
  - Mind and the nervous system.

For further information visit [www.research.uwa.edu.au](http://www.research.uwa.edu.au)
If you plan to take the lead in your career and stand out, a postgraduate qualification from a university in the top 100 worldwide will set you apart.

**The benefits of studying a UWA postgraduate course include:**
- greater career opportunities within a global workplace;
- learn from leaders in their field;
- improved links with industry and professional practice;
- an advanced learning environment at postgraduate level; and
- developing your future professional networks as you engage with high achieving peers.

**Postgraduate qualifications can lead to:**
- Enhanced career success and earning: Graduates with postgraduate qualifications are more likely to get promoted into higher paid positions.
- Development of transferable skills: You will further develop analytical, problem-solving and critical thinking skills that are highly valued by employers.
- A new career direction: If you already have a degree but are yearning for a change of direction, further study can lead to a new career.
- Intellectual reward: Postgraduate study is intellectually stimulating and personally rewarding and offers you the chance to pursue a specialist area of interest.

Postgraduate qualifications can lead to:
- Advanced career prospects: According to the Postgraduate Destinations 2012 survey, completed by Graduate Careers Australia, graduates with postgraduate qualifications enter full-time positions faster than graduates with bachelors’ degrees.

Postgraduate qualifications can lead to:
- Advanced career prospects: According to the Postgraduate Destinations 2012 survey, completed by Graduate Careers Australia, graduates with postgraduate qualifications enter full-time positions faster than graduates with bachelors’ degrees.

As one of Australia’s Group of Eight research-intensive universities, The University of Western Australia has an exceptionally strong research culture and is committed to the idea that intellectual capital is the global economy’s most dynamic commodity.

The University has a strong commitment to excellence and this underpins all its activities, particularly in the areas of research and teaching.

UWA is responsible for the majority of university-based research and development in Western Australia, attracting researchers of international standing. Annually the University receives in excess of AUD $208m of external research income with close to 2000 higher degree by research students completing their degrees, nearly 80% of these being PhDs.

Our students benefit from the strong knowledge base and experience of our research and teaching staff. These academic leaders pass on their knowledge and enthuse their students, who then leave with a respected qualification as well as the skills sought by employers in today’s challenging global job market.

UWA has 130 research and training centres with links into industry and government, both locally, nationally and internationally. The acknowledged strength of UWA’s research output makes the University appealing to researchers of international standing, many of whom head major research centres that have global links.

UWA student researchers learn from leading academics to achieve amazing innovations and discoveries – such as young astronomer Damien Macpherson, who is still working on his PhD but already his research into Gamma-ray bursts is being considered by NASA. Damien is supervised by Professor David Coward, a Future Fellow in the School of Physics, and is also located at the International Centre for Radio Astronomy Research (ICRAR).

UWA offers countless examples of pioneering student research across all disciplines. Learn more at www.research.uwa.edu.au/postgraduate-profiles

Work with UWA’s world-class researchers

**PROFESSOR CARLOS DUARTE**
A leading world marine research body awarded its highest honour to Professor Carlos M. Duarte, Director of the UWA Oceans Institute. The Oceans Institute awarded Professor Duarte with its Prix d’Excellence, for his many contributions to marine science and oceanography.

**PROFESSOR STEVEN SMITH**
Professor Steven Smith is a world leader in applying functional genomics tools to the study of plant metabolism. He is the director of the Centre of Excellence in Plant Metabolomics, which carries out fundamental research in plant metabolic biology. The Centre’s goal is to develop strategies to select or tailor plants for improved performance under environmental extremes and for improved production of food, materials or bioenergy.

**WINTHROP PROFESSOR CHERYL PRAEGER**
Winthrop Professor Cheryl Praeger is in the top one per cent of highly cited mathematicians in the world and is best known for her works in group theory, algebraic graph theory and combinatorial designs. Professor Cheryl Praeger was elected Foreign Secretary of the Australian Academy of Science and elected as Honorary Member of the London Mathematical Society.
Professor Regenauer-Lieb is at the forefront of the field of mathematical geophysics and computational dynamics, which holds the key to finding where and how to look for new mineral sources. Combining geology with geodynamics, he is looking back four billion years to understand where the Earth’s deposits of various valuable minerals or geothermal sources were formed.

Winthrop Professor Dongke Zhang (pictured), Foundation Professor of UWA Chemical Engineering and Director of the Centre for Energy, was named in the 2011 Top 100 Australia’s Most Influential Engineers. The list is put together by Engineers Australia to recognise senior engineers who share specialised expertise.

The University of Western Australia is home to 15 highly cited researchers — the 250 academics in the world whose studies are most cited in other research articles over a 20-year rolling period.

Winthrop Professor Hans Lambers

Professor John Weins
POSTGRADUATE STUDY BY COURSEWORK OR RESEARCH

With knowledge as the universal currency that underpins the performance and success of individuals, organisations and nations, postgraduate qualifications are rapidly becoming an expectation in an internationally mobile workforce. UWA graduates are renowned for their initiative, critical thinking and skill levels, making them highly employable in a competitive global economy.

Postgraduate study is defined as courses of university study generally undertaken upon completion of a bachelor degree. At UWA, we offer the following types of postgraduate courses:

Professional postgraduate degrees
At UWA professional qualifications are offered at postgraduate level, in line with international best practice.

A professional postgraduate degree is a master’s or doctorate level course, taken upon completion of a bachelor degree (or equivalent) that, upon successful completion, qualifies the student to enter a profession. UWA’s suite of professional postgraduate coursework degrees have replaced degrees that were previously offered at undergraduate level.

Coursework degrees
UWA offers a range of postgraduate coursework degrees designed to help you develop a thorough understanding of an area of study, diversify your educational background or obtain specific vocational training.

Coursework degrees include:
- Graduate Certificates
- Graduate Diplomas
- Higher Degree by Research
- Preliminary courses
- Masters by coursework
- Clinical Doctorates
- Professional Doctorates

Research degrees
Students keen to contribute to knowledge and develop important skills or explore an area of personal interest, may consider a research degree. For further information, see page 10. Research degrees entail a project of supervised but independent enquiry at an advanced level, resulting in the submission of a research thesis (or equivalent production) which is examined by experts in the field.

Research degrees include:
- Masters by thesis and coursework
- Masters by research
- Professional Doctorates, including Doctor of Philosophy (PhD)

With knowledge as the universal currency that underpins the performance and success of individuals, organisations and nations, postgraduate qualifications are rapidly becoming an expectation in an internationally mobile workforce. UWA graduates are renowned for their initiative, critical thinking and skill levels, making them highly employable in a competitive global economy.
Articulation/Articulated course
Articulation may be available within certain sets of courses. Articulation is a sequence of related postgraduate courses in a specific discipline area, offering progression from one course level to another with credit granted for all units passed to the appropriate standard in the previous level. Graduate certificates, graduate diplomas and/or master’s degrees may form part of this sequence. See table below for more information.

An example of articulation between postgraduate degrees

**Terminology**

- **Graduate certificate**
  - Typically follows a bachelor’s degree and is equivalent to one semester of full-time study.

- **Graduate diploma**
  - Regarded as a higher qualification and offering greater depth than a graduate certificate and are generally equivalent to two semesters (or one year) of full-time study.

- **Master’s degree (Coursework)**
  - A master’s degree by coursework is comprised of 100% coursework. It is normally the equivalent of two years of full-time study after a bachelor degree (or equivalent).

- **Master’s degree (Coursework and Dissertation)**
  - These courses involve both coursework and research, where the research component (dissertation) comprises less than 66.6% of the course requirements. Typically requires two years of full-time study (or equivalent) after a bachelor degree.

- **Professional Postgraduate degree**
  - A masters or doctorate level course, taken upon completion of a bachelor degree (or equivalent) that, upon successful completion, qualifies the student to enter a profession.

- **Master’s degree (Thesis and Coursework)**
  - A mixed mode research degree with a research component that is equal to or greater than 66.6%, but less than 100%, of the total course. Typically requires two years of full-time study (or equivalent) after a bachelor degree.

- **Master’s degree (Research)**
  - A course normally requiring the equivalent of two years of full-time study and including a supervised research component that represents 100% of the course requirements.

- **Professional Doctorates and PhD (Doctor of Philosophy)**
  - A doctoral degree, normally undertaken over a period of four years of full-time studies, consists of supervised research resulting in the preparation of a thesis that makes a substantial and original contribution to knowledge.

**LEADING THE WAY**
In response to industry and society needs, UWA is continually developing new and innovative courses.

Graduate Research School (GRS)
The Graduate Research School coordinates most of the graduate research training activities at The University of Western Australia, including the administration of the University’s higher degrees by research. Its aim is to ensure that the research training provided at UWA is of the highest quality, through well-designed and well-presented courses, appropriate induction programs, excellent research supervision and special services for international students.

The pursuit of knowledge through graduate research programs leads to a well-educated society and a highly trained professional workforce. Research degrees offer the exciting opportunity to explore an area of interest, contribute to knowledge and develop important transferable skills. High-achieving students elect to undertake a research degree because they have the drive to excel in their chosen fields. By completing a research degree this indicates to a prospective employer that you have excellent project and personal management skills and shows that you can think independently and critically, solve problems and communicate effectively.

Research leaders
Many of UWA’s researchers are international leaders in their fields. Learn more about our ARC Laureate and Federation Fellows, Premier’s Fellows, ARC/NHMRC Professional Fellows, highly cited researchers and other research leaders at www.research.uwa.edu.au/fellows

For particular information about UWA’s research courses, please refer to the faculty pages within this publication. For more information about UWA’s research profile, and to search for areas of research interest and expertise, please explore www.research.uwa.edu.au

Where to start
To begin the next stage of your research endeavours you will need to:

Identify who might be your supervisor
Before you start your application for a research degree, think of a research topic and identify and contact possible supervisors who could oversee and guide your research for the degree. Discuss supervision, eligibility, resources and a research proposal. For assistance in identifying a possible supervisor, and resources available in a school, you can contact the relevant Graduate Research Coordinator. For a current list of Graduate Research Coordinators, see: www.postgraduate.uwa.edu.au/contact/coordinators

Prepare a research proposal
You are required to prepare a brief outline (maximum 250 words) of your proposed area of study to discuss with a prospective supervisor, and submit it with your application.

Discuss the resources available
Find out what resources are available to you as a postgraduate research student, such as access to an office, computer, phone, email, printing and stationery, as these vary depending on the school in which you enrol. It is very important that you make this a topic of discussion at the application phase, so that you can begin with a realistic expectation of the facilities and resources available.

Be informed
Spend some time looking through the University’s research website. There is a lot of useful information for prospective research students at: postgraduate.uwa.edu.au/students/journey

PhD admission requirements
To be admitted, you must demonstrate that you have sufficient research preparation to successfully complete a PhD and Masters by research. You must demonstrate that you have undertaken supervised individual research in which you have designed and conducted a scholarly investigation.

Research is an exciting journey of discovery, where you will be working at the ever-shifting boundary between the known and the unknown. Like any pioneering work, research is a quest to unravel the answers to the challenges facing the world today. The University of Western Australia offers an outstanding, international research culture across all disciplines.
in the context of an existing body of knowledge, critically analysed and evaluated the outcome in that context, and communicated the process effectively in writing.

You will be able to provide evidence of scholarly work in at least one of the following forms:

- a supervised research dissertation project completed as a program undertaken after a three year, or during a four year, Bachelors degree, carrying the equivalent credit of at least 25% of an annual full-time load and awarded an assessed result at or above distinction level;
- scholarly papers as sole or primary author, appearing in recognised academic journals or in volumes published by recognised academic publishers;
- published research reports prepared for industry, government or business, which adhere to the broad conventions of academic publishing (i.e. contain an up-to-date review of relevant literature, a description of relevant research methods and an evaluation of results, etc.) and which identify the applicant as sole or primary author;
- a portfolio of published creative work together with published critical discussion of some or all of that work, or of a comparable body of work by others, and which demonstrates development of a scholarly approach to creative work as research investigation.

Admission to the PhD is dependent on the availability of appropriate supervision and other resources.

### Doctor of Philosophy (PhD)

- **UWA COURSE CODE**: 00810
- **DURATION**: 4 years
- **INTAKE PERIOD**: Any time during the academic year
- **MODE OF STUDY**: Research
- **2015 TUITION FEE**: Between AUD $40,000 – AUD $45,000 per year depending on your chosen discipline.
- **APPLY**: Online at [www.uwa.edu.au/applynow](http://www.uwa.edu.au/applynow)
- **MORE INFORMATION**: [www.studyat.uwa.edu.au/phd](http://www.studyat.uwa.edu.au/phd)

**ADMISSION REQUIREMENTS**

An applicant must demonstrate that they have fulfilled the requirements of the Policy on Adequate Research Preparation and any other requirements for admission of the University. See [www.postgraduate.uwa.edu.au/schools/research-preparation](http://www.postgraduate.uwa.edu.au/schools/research-preparation)

The normal requirement is to have a bachelor's degree of this University with at least upper second class honours in an appropriate discipline, or a qualification recognised by the Board as equivalent; or

- Have previously undertaken work, which in the Board's opinion is of a sufficiently high standard, towards a higher degree by research in this or another approved institution but not have submitted it for any degree; or
- Have completed and had approved by the Board, on the recommendation of the supervisor and the head of school, a PhD research proposal; or
- Have the degree of bachelor of this University or have a qualification recognised by the Board as equivalent, and have since graduation completed at a satisfactory level a Higher Degree by Research Preliminary Program, or equivalent as determined by the Board, in the subject area in which research is to be undertaken;
- Suitable resources and supervision arrangements must be approved by the School in which the student is enrolling;
- Minimum English language competence – see page 106 for more information.

**Course description**: The PhD is a program of independent, supervised research that is assessed solely on the basis of a thesis and is examined externally. The work presented for a PhD must be a substantial and original contribution to scholarship, demonstrating mastery of the subject of interest as well as an advance in that field of knowledge.

### Master of Philosophy (MPhil)

- **UWA COURSE CODE**: 00710
- **DURATION**: 2 years
- **INTAKE PERIOD**: Any time during the academic year
- **MODE OF STUDY**: Research
- **2015 TUITION FEE**: Between AUD $30,000 – AUD $45,000 per year depending on your chosen discipline.
- **APPLY**: Online at [www.uwa.edu.au/applynow](http://www.uwa.edu.au/applynow)

**ADMISSION REQUIREMENTS**

An applicant must have demonstrated that they have fulfilled the requirements of the Policy on Adequate Research Preparation and any other requirements for admission of the University. See [www.postgraduate.uwa.edu.au/schools/research-preparation](http://www.postgraduate.uwa.edu.au/schools/research-preparation)

The normal requirement is to have a bachelor's degree of this University with at least upper second class honours in an appropriate discipline, or a qualification recognised by the Board as equivalent; or

- Have previously undertaken work at a high enough standard towards a higher degree by research in this or another approved institution but has not submitted it for any degree; or
- Have completed and had approved by the Board, on the recommendation of the supervisor and the head of school, a PhD research proposal; or
- Have the degree of bachelor of this University or a qualification recognised by the Board as equivalent and has since graduation completed at a satisfactory level a Higher Degree by Research Preliminary Program, or equivalent as determined by the Board, in the subject area in which research is to be undertaken;
- Suitable resources and supervision arrangements must be approved by the School in which the student is enrolling;
- Minimum English language competence – see page 106 for more information.

**Course description**: This is a program of independent, supervised research that can be taken in any discipline for which appropriate supervision is available, and is assessed solely on the basis of a thesis.
EXCITING EMPLOYMENT OPPORTUNITIES
Western Australia has the lowest unemployment rate in Australia and is responsible for 48 per cent of Australia’s total export income which has led to many exciting employment opportunities. As a result of the bustling activity, over 780 Australian stock exchange listed companies have chosen to locate their head office in Perth – more than any other capital city in Australia.

STUNNING SCENERY AND AN OUTDOOR LIFESTYLE
Perth is Australia’s sunniest capital city and the Mediterranean climate of warm dry summers is ideal for sports and outdoor activities such as golf, tennis, sailing, cycling, swimming and windsurfing, or you experience beautiful nature at Kings Park, 400 hectares of natural bushland and botanical gardens right in the middle of Perth and just up the road from UWA.

THE CITY OF PERTH

Perth offers an inspiring study environment of sunny weather, a relaxed outdoor lifestyle and beautiful natural scenery and has been recognised as one of the top ten most liveable cities in the world according to the Economist Intelligence Unit’s Global Liveability Survey for several years in a row.

People from across the world are drawn to Perth and the state of Western Australia for many reasons and as a result our state has become the most culturally diverse in Australia with around 30 per cent of the population having been born elsewhere and over 170 nationalities represented across the community.

Perth is a popular destination for international students as it offers an inspiring study environment that also shares the same time zone as 60 per cent of the world’s population and is only a few hours of flight time to several Asian cities – making it easier to keep in touch with family and friends.

AUSTRALIA’S FASTEST GROWING CITY
Perth has had one of the most consistent rates of economic growth in Australia over the past decade, with an average growth rate well above the national average of 3.5 per cent. Perth’s growth is driven by a mixture of local and international firms operating in a range of industries, supported by a stable political environment and strong local demand.

Located minutes from Perth city, UWA has a picturesque riverside campus in the suburb of Crawley, that is easily accessible via frequent public transport with discounted fares for international students.

**GETTING AROUND**
Perth’s public transport system makes it easy to get around the city and to the main UWA campus and international students receive a West Australian Government-sponsored 40 per cent discount on all public transport. Perth also has free buses called CATs that operate around the central business district.

**SAFE AND FRIENDLY**
Perth offers a high standard of living and has achieved positive rankings in the Best Student Cities Rankings published by QS Top Universities. Perth also offers a safe and friendly study environment with a diverse student population; according to Australia Education International, Perth has the best international student diversity in Australia.

**CONVENIENT FACILITIES**
Perth City Library provides community access to computers, wireless internet, thousands of publications and e-resources and is undergoing renovations to include a new exhibition space, AV/multifunction rooms and virtual and digital resources across seven levels spanning 3,500 square metres.

Perth is the first and only city in Australia to offer free public WiFi in the CBD – a great way to stay in contact with family and friends whilst out and about.

BILLABONG, THE PILBARA

THE PINNACLES

AUSTRALIAN OUTBACK
Perth City is located within the state of Western Australia. Western Australia covers one-third of the Australian continent. Spanning over 2.5 million square kilometres (1 million square miles), Western Australia extends into two different climatic zones. When it is warm and dry in the north of the State, it is cool and wet in the south. Bordered largely by desert to the east, Western Australia is bounded by 12,500 kilometres (7813 miles) of the world’s most pristine coastline to the west.

Western Australia is a land blessed with some of the world’s most precious natural phenomena including the dolphins of Monkey Mia, the 350-million-year-old Bungle Bungle range and the towering karri forests of the South West. Venture beyond Perth to see a vast country of big experiences. Be in awe of landscapes carved by nature over millions of years. Immerse yourself in Aboriginal culture. Get up close and personal with the unique flora and fauna of Australia.

Situated in the far north is the Kimberley region, an ancient landform of rugged ranges with deep, spectacular gorges and pristine sandy beaches. The Pilbara region is the heartland of Western Australia and offers thrilling adventure and ecotourism opportunities. The north is contrasted by the natural forests and vineyards of the South West. Wherever you go, the memories will last forever.
Attending an international university is about more than study. It is about discovering a new culture, meeting people from all over the world, and discovering a little more about yourself.

As a UWA student you can expect to be stretched intellectually as you interact with some of the country's leading researchers and teachers, at the same time making friends with other students from across Australia and around the world.

The Guild represents students' interests at all levels of university life, advocating on behalf of students since 1913. The staff and student representatives of the Guild can help you make the most of your time at UWA.

www.guild.uwa.edu.au

The International Students' Service (ISS) is part of the Student Guild and looks after the welfare of international students studying at the University. The ISS organises the annual Multicultural Week event and is affiliated with many of the international clubs on campus.

www.uwastudentguild.com/about/departments/iss/

The Postgraduate Students' Association (PSA) represents postgraduate students on campus as well as holding a number of events throughout the year including Research Week, Careers Week, sundowners, cocktail parties, afternoon teas, a quiz night and a sports day. The PSA also runs a grants scheme for postgraduate small group activities. All postgraduate students automatically become members upon enrolment.

www.psa.guild.uwa.edu.au

UWA Student Guild
The UWA Student Guild is the heart-beat of campus life and is the centre of activity for clubs, societies, entertainment and a wide range of services such as catering, sporting facilities and a second-hand bookshop. The Guild organises annual activities for students such as Orientation Week, the Guild Ball (formal dance) and the National Campus Band competition. As a UWA student you will have dozens of affiliated student clubs and societies to choose from. These clubs are as diverse as the UWA Film Society, the UWAnime Japanese Animation Club, and the UWA Jazz Club. There are also several clubs dedicated to particular disciplines such as the Engineers Club, the Politics Club, the Chinese Society and Blackstone (the UWA Law Society).

The Guild represents students' interests at all levels of university life, advocating on behalf of students since 1913. The staff and student representatives of the Guild can help you make the most of your time at UWA.

www.guild.uwa.edu.au

UWA RUGBY CLUB

ORIENTATION WEEK

FESTIVAL
UWA plays a prominent role in the cultural life of the city as the founder of the Perth International Arts Festival, Australia's oldest performing arts festival. Held over the summer months, the Festival offers some of the best international and contemporary drama, theatre, music, film, art, literature and comedy entertainment in Australia.

The University plays host to a number of events including the Perth Writer's Festival, held annually on the UWA Crawley campus.

Essential Facilities

The University has many essential facilities on its Crawley campus and consistently rates highly in student feedback surveys as offering an exciting, vibrant atmosphere.

Services and facilities include:

- Banking
- Co-op Bookshop and second-hand bookshop
- Child care
- Cafés
- Computer shop
- Guild shop and newsagency
- Travel agency
- Market day every Tuesday
- Art gallery, museums, performance theatres and outdoor cinema
- Recreation centre, swimming pools, tennis and squash courts and a health and fitness centre
- Optometrist, medical centre, pharmacy, dentist and physiotherapist

Perth International Arts Festival

UWA plays a prominent role in the cultural life of the city as the founder of the Perth International Arts Festival, Australia's oldest performing arts festival. Held over the summer months, the Festival offers some of the best international and contemporary drama, theatre, music, film, art, literature and comedy entertainment in Australia.

The University plays host to a number of events including the Perth Writer's Festival, held annually on the UWA Crawley campus.

UWA Sports

www.sport.uwa.edu.au

Encouraging young sportspeople is a focus for the University. The University has a proud tradition of graduating students who excel in sports as well as in their studies. Many students have gone on to compete internationally in their chosen sport and some have competed at the Olympics.

UWA Sports is a hub of extracurricular activity through the Recreate® programs. These courses include over 40 different active fitness, sport, dance, outdoor, lifestyle and aquatic programs. Each year, students are also encouraged to participate in the annual Australian University Games, which is an opportunity to play sport against other universities from around Australia.
UWA’s distinctive mix of heritage architecture and contemporary buildings contain state-of-the-art teaching and research facilities, lecture and performance theatres, tutorial spaces, studios and laboratories create the perfect learning environment.

Located beside a river-bend in Crawley just minutes from the city of Perth, UWA is often described as one of Australia’s most picturesque campuses.

Our extensive art collection, museums, music and theatre venues coupled with our sporting, cultural and social groups will ensure that you are not only learning in a stimulating environment, but also that your cultural and social needs are being met.

With more than 25,000 students and 3,500 staff, as well as cafés, libraries, sporting facilities, galleries and shops, the Crawley campus is like a small town.

UWA’s close proximity to the city and prime location on well-served public transportation routes means you are conveniently located to the city and other amenities, with easy access to and from the campus.

Adjoining UWA’s Crawley campus you can visit Kings Park, cycle around the river or enjoy a coffee or meal at one of the many local cafés.

Excellent facilities
At the heart of the campus is the Reid Library, Western Australia’s largest academic library. The Reid Library is complemented by several subject specific libraries around the campus.

The University has excellent computer facilities throughout the campus, equipped with the latest general and subject-specific software. Through remote access, students can access lecture material, course readings and lecture notes online. All classrooms are fully equipped with sophisticated teaching equipment.

The purpose-built AUD$30 million Science Library draws together the University’s library resources across all science disciplines and provides a variety of individual and group learning spaces for students.

The University houses the cutting-edge AUD$73 million Bayliss Building, the most advanced biomolecular sciences facility in WA.

The University’s Clinical Training and Education Centre (CTEC), Australia’s premier medical and surgical skills training centre, is one of the most advanced medical technology complexes in the world.

In partnership with the Western Australian Government, UWA has a state-of-the-art oral health centre, offering modern teaching and clinical services.
SUPPORTING YOU

Support every step of the way

UWA offers a wide range of services that complement the university experience and contribute directly to the welfare and wellbeing of students. Services available to all students include:

Study and live smarter:
We offer personal and educational counselling, as well as short courses in learning and research skills, and academic and thesis writing. We strongly encourage all international students to take full advantage of these services while studying with us.

Make a world of new friends:
The Language and Cultural Exchange (LACE) program fosters intercultural friendship and understanding between international and domestic postgraduate students and staff across the campus.

Be healthy: The University Medical Centre has experienced medical staff on campus who provide convenient, comprehensive and confidential medical care to students.

Plan your career: UWA’s Careers Centre assists with vocational counselling and long-term career planning as well as short term, part-time and casual job applications.

Feel at home: UWA’s Housing Service provides information on accommodation options and advice on housing issues, including helping students to understand leases, bonds, tenancy law and the costs involved with establishing a household.

Take care of your children: UWA’s child care services provide day care, after school care and school holiday programs.

Get support if you have a disability: UWA offers services and support for students with disabilities and medical conditions including customised orientation, access to specialised equipment and software, and advocacy.

You’ll find these programs and services and more at: www.student.uwa.edu.au/life

Regional Teaching Centre

www.albany.uwa.edu.au

UWA also has a regional education centre in the South West town of Albany. Located in Albany’s historic Old Post Office building, the UWA Albany Centre uses multimedia technology to enable students to experience Perth lectures over the internet. The Centre also offers excellent computing facilities, after-hours access, a student common room and spectacular harbour views.

The Centre is a small, friendly learning community with a range of support services.
UWA understands how important it is to international students (and their families) to find good quality accommodation close to the campus. There are many accommodation options available to international students, designed to suit different needs.

**Renting or leasing**
Renting or leasing an apartment, unit or house may be undertaken on your own or shared with others. You take responsibility for the property and sign a rental contract. The approximate cost of renting a one-, two- or three-bedroom house near the University ranges from AUD $320 (one bedroom) to AUD $700 (three bedrooms) per week, but this depends on the size, location and quality of the housing.

Accommodation close to the University is in high demand and good accommodation can be found all over Perth for less. It is important to be aware that most rental leases will require a commitment of at least 12 months and you should bring character references with you to support your rental applications.

The initial cost of moving into a rented property includes:

- Two weeks to be paid in advance;
- Four weeks rent is required as a bond. This is refundable at the end of the tenancy agreement as long as the property has been maintained in good condition;
- One week’s rent as a letting fee. This is a non-refundable fee charged by the letting agent. It cannot be charged by private owners;
- Utilities connection fees, such as phone or electricity;
- Stamp duty if the rent is more than AUD$125 per week.

Prices quoted below were accurate at the time of printing and are an indication only. We recommend students conduct their own searches of relevant websites when budgeting and preparing to come to Perth.

**College Living at UWA**
The five residential colleges at UWA support the student experience by offering great places to live as well as providing opportunities and programs that create an all-inclusive learning experience. It is this vibrant combination of living and learning that adds a valuable dimension to your degree.

The colleges typically have private, fully furnished bedrooms, along with common rooms, study areas, resource/computer rooms, various social, sporting/recreational spaces and are catered.

The colleges are directly adjacent to the main UWA Crawley campus. Each college has its own style and feel, but all are united in their commitment to provide welcoming, comfortable, secure and convenient living.
Each college has an online application form or a pdf of their form to download – you will find these on the websites listed on this page. For further details and application information, please visit the college websites.

This overview should be read in conjunction with each college’s fee schedule, located on their websites. Prices quoted are for 2014 and are meant to give an indication of costs only. 2015 fees will be available late 2014. Check the college websites for this information.

- Please note some colleges charge a non-refundable application fee of AUD$60.
- The weekly fee quoted for University Hall is for 14 meals per week and standard room only. Students are welcome to upgrade to 21 meals per week for an additional cost. Internet access, water and electricity are included. Please note that rates vary depending on room type and lease options.
- The standard yearly fee is for accommodation, meals, utilities and cleaning. Other annual fees apply such as a contingency fee, an internet fee, building and/or amenities fees, and College Club membership. For a full list, please refer to each individual college website.
- The UWA academic year comprises of 34 weeks with five-week mid-year break between semesters. The number of weeks in the standard year fee varies from college to college. Students can apply to stay on for extra days/weeks for a nominal daily/weekly rate if they wish to stay during the mid-year break. All first-year college students undertake one extra week of college living – Orientation Week. See associated charges for each college’s Orientation Week.

**Steps to finding off-campus accommodation**

The University’s Housing Office has an online housing database for UWA students. International students who have been offered a place at UWA but have not yet enrolled can create an account and access the database. To find out how to create an account, go to [www.housing.uwa.edu.au/housing-database](http://www.housing.uwa.edu.au/housing-database) and follow the instructions.

The Housing Office will verify that you have been made an offer and then give you access to the online searchable database, which includes lists of people looking to share a property or who have a vacant property to rent.

**Schooling for dependant children of postgraduate students**

The dependant children of a master’s by coursework, master’s by research, doctorate or PhD student can be admitted into government schools that have spare capacity, free of charge. The dependant children must be physically in the country at the time of enrolment. The postgraduate student is responsible for meeting the full tuition costs of providing dependant children with an ‘English as a Second Language’ program. You must make arrangements for schooling through the International Centre and should not approach schools directly.

The cost of attending university involves more than just paying tuition fees. You will need to fund accommodation, travel to and from campus, buy books and stationery, and consider how much you spend on food and entertainment.

Cost of living
The annual cost of living in Perth depends on your lifestyle and the type of accommodation you choose, however AUD$450–$550 per week is generally sufficient for most single students to live comfortably (this does not include tuition fees or medical cover). In addition you will need extra funds to cover various items such as airfares and textbooks. There may also be ancillary fees applicable to your course. To find your faculty information, visit www.teachingandlearning.uwa.edu.au/students/fees

Tuition fees increase each calendar year and are not fixed for the duration of the chosen program.

The comparative table gives an indication of the type of expenses and average costs you will need to meet. Students with a family (spouse and one child) should budget a minimum of AUD $900 per week (AUD $46,800 per annum) for living expenses. Please use it as a guide only.

Part-time employment
Under the terms of a student visa, once you have commenced your course of study in Australia, you may work up to 40 hours per fortnight while your course is in session and unlimited hours during scheduled course breaks.

The University has a Careers Centre to help students find part-time and vacation work but it is important to be aware that work is not always available. Students should not rely on earning sufficient income to support their studies and the Department of Immigration and Border Protection may decline a visa on this basis. www.careers.uwa.edu.au

OSHC is offered by a number of providers, see www.studyinaustralia.gov.au/global/live-in-australia/insurance You may obtain OSHC from the provider of your choice.

The University of Western Australia has a ‘preferred provider’ agreement with Allianz Global Assistance. On acceptance and payment of your offer, UWA will arrange health cover with Allianz Global Assistance for the duration of your student visa. For information on the University’s agreement with Allianz Global Assistance, refer to www.international.uwa.edu.au/newstudents/health

OSHC is a specially negotiated premium only available to international students and covers standard health requirements. Payments are based on the length of the study program. The fees quoted above are not the fees payable if you obtain insurance from another provider. This is not applicable to students from Norway and Sweden who are covered under a separate arrangement.

There are three types of policies available to students:
» Single cover – covers only the valid student visa holder
» Dual family cover – covers one valid student visa holder plus either one adult spouse, or one or more dependent children
» Multi-family cover – covers one valid student visa holder plus more than one dependent – this can include one adult spouse and one or more dependent children.

A compulsory Student Services Amenities and Services Fee (SSAF) is payable for each year or part year of your study. The fee is used to improve the quality and quantity of services to students. The fee for 2015 will be set in November 2014. The 2014 fee is AUD $280. An electronic SSAF Statement of Account notification fee will be sent to your UWA student email account each semester following your enrolment.

www.student.uwa.edu.au/course/fees/ssaf

Amenities and Service Fee

The University of Western Australia | INTERNATIONAL POSTGRADUATE PROSPECTUS 2015–2016 | 23
The purpose of the International Postgraduate Research Scholarships (IPRS) is to attract top quality international postgraduate students to areas in which the University has specialised research strengths and to support Australia’s research effort. Successful applicants can expect to become members of a research team working under the direction of senior researchers and in areas which has attracted external resources.

Applicants for IPRS at UWA are rated according to the following criteria:
- Academic achievement
- English language achievement
- Research training achievement
- Proposed research environment.

Allocation of scholarships is the outcome of a competitive ranking and selection process in which applicants are scored and ranked by schools, faculties and the University Scholarships Committee, according to these common criteria and on the basis of evidence provided.

These UWA scholarships can only be applied for online.

For comprehensive information on deadlines, entry requirements, eligibility and application process, please visit: www.scholarships.uwa.edu.au

Australia Awards
The Australia Awards aim to promote knowledge, education links and enduring ties between Australia and our neighbours, through an extensive range of scholarship programs.
The IPRS offered me a unique opportunity to undertake my PhD project at a university renowned for its high-impact research. The financial assistance made available through the scholarship has allowed me to focus entirely on my research project. It has provided avenues for my personal and professional growth and the chance for a life changing experience.

Dilyara Nigmatullina
PhD Candidate
Law School

The Australia Awards brings the Australian Government Department of Foreign Affairs and Trade (DFAT), the Department of Industry, Innovation, Climate Change, Science, Research and Tertiary Education (DIICCSRTE) and the Australian Centre for International Agricultural Research (ACIAR) scholarships together under the Australia Awards program.

Australia Awards aim to:
- develop capacity and leadership skills so that individuals can contribute to development in their home country
- build people-to-people linkages at the individual, institutional and country levels.

Australia Awards consist of Australia Awards long-term Scholarships, Australia Awards short-term Scholarships, and Australia Awards Fellowships.

More information, including applicant eligibility criteria can be found at: www.australiaawards.gov.au

Endeavour Awards
The Endeavour Awards is the Australian Government’s internationally competitive, merit-based scholarship program providing opportunities for citizens of the Asia Pacific, the Middle East, Europe and the Americas to undertake study, research and professional development in Australia. Awards are also available for Australians to undertake study, research and professional development abroad.

The Faculty of Architecture, Landscape and Visual Arts (ALVA) is dedicated to excellence in teaching, learning, practice and research in multiple aspects of building and visual culture, design and art.

Postgraduate coursework and research programs attract high quality students from around the world seeking to advance scholarship in the disciplines of Architecture, Landscape Architecture, Urban Design, Art History and Visual Arts.

Excellence at ALVA is reflected in our reputation for being at the forefront of international practice in a diverse range of fields. Faculty courses are distinguished by a philosophy and research environment that encourages imaginative work between design, art and text; the research-teaching nexus; and collaborations among ALVA staff and postgraduate students between disciplines and faculties, as well as nationally and internationally.

Areas of Faculty teaching and research strengths:
- Future cities
- Critical studies of the built environment
- Landscape urbanism
- Affordable and sustainable housing
- Innovative design technologies
- Urban history
- Australian visual culture
- Indigenous art
- Nineteenth and twentieth century modernism
- Experimental art

Lively debate, critical engagement and studio work form the core activities in the Faculty.

Our culture is individually-oriented, future-focused and values innovation and collaboration between creative disciplines. Together we produce tangible benefits for our graduates and society.

</table>

**ADMISSION REQUIREMENTS**

A bachelor’s degree in an appropriate subject area from this University, or equivalent as recognised by the Board; and

Have completed the requirements for a qualification in Art Practice from a recognised tertiary institution, or be judged by the Board, having regard to the recommendation of the Dean of the Faculty of Architecture, Landscape and Visual Arts, to have equivalent practical expertise and professional standing;

An applicant must demonstrate that they have fulfilled the requirements of the Policy on Adequate Research Preparation and any other requirements for admission of the University, see [www.postgraduate.uwa.edu.au/schools/research-preparation](http://www.postgraduate.uwa.edu.au/schools/research-preparation)

Suitable resources and supervision arrangements must be approved by the School in which the student is enrolling;

Minimum English language competence – see page 106 for more information

**Course description:** This specialist degree provides a high-quality academic qualification in the theory and practice of the fine arts that carries credibility both nationally and internationally and empowers artists in their pursuit of national and international recognition. The Master of Fine Arts differs from other fine arts degrees in that it assumes a high level of both theoretical and practical expertise in fine arts. Students without this background are required to do preliminary work.
PROFESSIONAL DEGREES

Master of Architecture

UWA COURSE CODE 25520
CRICOS CODE 084738G
DURATION 2 years
INTAKE PERIOD February, July
MODE OF STUDY Coursework
2015 TUITION FEE AUD $31,500
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/m/architecture

ADMISSION REQUIREMENTS
A bachelor’s degree with majors in Architecture and Integrated Design, or equivalent as recognised by the Faculty.
OR a bachelor’s degree of this University with a weighted average mark of at least 60%, or equivalent as recognised by the Faculty.
Minimum English language competence – see page 106 for more information

Students without an architectural background will complete up to 3.5 years of full-time or equivalent study.

Course description: This is UWA’s professional qualification in architecture, and is accredited by the Australian Institute of Architects and the Architects Board of WA. The course emphasises the application of concepts to the design of specialised building projects, with a focus on issues that concern the servicing of complex buildings. Students take part in professional practice and are also introduced to relevant research methods. The final stage of the professional course requires the completion of fully resolved projects taken to a developed design stage, involving the integration of program development; site planning and organisation; technological and servicing aspects with building planning; material selection; and design detailing. Students can also undertake a number of option units to increase their knowledge in specialised areas of design and architecture.

Master of Landscape Architecture

UWA COURSE CODE 25550
CRICOS CODE 084023J
DURATION 2 years
INTAKE PERIOD February, July
MODE OF STUDY Coursework
2015 TUITION FEE AUD $29,500
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/m/landscape-architecture

ADMISSION REQUIREMENTS
A bachelor’s degree of this University with a major in Landscape Architecture, or equivalent as recognised by the Faculty.
A bachelor’s degree of this University with a weighted average mark of at least 60%, or equivalent as recognised by the Faculty.
Minimum English language competence – see page 106 for more information

Students admitted to the course having completed an undergraduate major in landscape architecture will be required to complete two years of full-time or equivalent study. Students without a landscape architecture background will complete up to 3 years of full-time or equivalent study.

Course description: The professional education pathway of a Master of Landscape Architecture and a Bachelor of Design (Landscape Architecture) of this University or equivalent is accredited by the Australian Institute of Landscape Architects. The Master of Landscape Architecture course will provide emphasis on ecological, cultural and social concerns at a global, regional and local level. The final stage of the degree requires the completion of fully resolved projects taken to a developed design stage through an independent research project.

Graduates of the course will be equipped with a range of high-level technical, analytical, design and communication skills necessary to formulate solutions to contemporary challenges.

The Faculty of Arts offers a range of postgraduate studies in the humanities, social sciences and music, including graduate certificates and diplomas, masters by coursework and research and the Doctor of Philosophy.

The Faculty is committed to the pursuit of intellectual inquiry and progress of knowledge. Internationally renowned teachers and scholars build the technical and intellectual capacity of our graduates so that they can critically engage in finding creative solutions for the challenges of transformation at all levels of social and public life.

Postgraduate studies in Arts will enhance your communication skills, reasoning ability, problem solving and capacity for both critical and creative thinking. This expertise will increase your career choices and provide you with the flexibility to work in a multitude of different settings.

Advance your professional skills and knowledge by selecting one of our discipline areas to undertake your postgraduate studies:
- Anthropology and Sociology
- Archaeology
- Asian Studies (includes Chinese, Indonesian, Japanese, Korean)
- Classics and Ancient History
- Communication and Media Studies
- English and Cultural Studies
- European Languages and Studies (French, German, Italian)
- Gender Studies
- History
- Linguistics
- Medieval and Early Modern Studies
- Music
- Philosophy
- Political Science and International Relations

Researchers and students are also able to take advantage of the research centres and institutes incorporated within the Faculty which are:
- Centre for Excellence for the History of Emotions
- Callaway Centre (music research)
- Centre for Medieval and Early Modern Studies
- Centre for Muslim States and Societies
- Centre for Rock Art Research and Management
- Centre for Western Australian History
- Confucius Institute
- Westerly Centre (research and publication in Australian and Asian Writing)

The University and the Faculty are well known for playing a prominent role in the cultural life of Perth over the past 100 years, founding the Perth International Arts Festival and hosting the Perth Writers Festival.

Minimum English language competence – see page 106 for more information

#### Course description:
The Master of Heritage Studies aims to meet the training needs of all those whose lives intersect with heritage, be this in the context of government, the business sector, NGOs, international organisations, museums, universities, heritage agencies, national and provincial parks etc. Two areas of specialisation are offered: Indigenous Australian Heritage and International Heritage.

The degree draws on the intellectual leadership and experience of Australia in the development of international heritage practice and focuses this upon serving international heritage training needs. This degree covers all types of heritage and considers how we live with, care for and share heritage issues, covering areas such as legislation, management, conservation, tourism, development, stewardship, presentation, sustainability, ethics and commodification.

#### Professional placement
All students have the opportunity to undertake a professional placement with a relevant organisation, a study tour, and an exchange with one of our partner universities overseas. Articulation is available within this study area. For more information, see page 9.

### Master of International Development – New in 2015

- **UWA COURSE CODE**: 71550
- **CRICOS CODE**: 083850D
- **DURATION**: 1.5 – 2 years
- **INTAKE PERIOD**: February, July
- **MODE OF STUDY**: Coursework or coursework and dissertation
- **2015 TUITION FEE**: AUD $32,500
- **APPLY**: Online at [www.uwa.edu.au/applynow](http://www.uwa.edu.au/applynow)
- **MORE INFORMATION**: [www.studyat.uwa.edu.au/m/int-development](http://www.studyat.uwa.edu.au/m/int-development)

#### ADMISSION REQUIREMENTS
A bachelor’s degree of this University or equivalent as recognised by the Faculty;
Minimum English language competence – see page 106 for more information

#### NOTE
Students may apply to undertake a research project within this degree.
Minimum course duration: 1.5 years full-time comprising 72 credit points of taught units and 24 points of admission credit.
Maximum course duration: 2 years full-time comprising 96 points of taught units.

- Students with a bachelor’s degree or major in a cognate (related) area of study will be granted up to 24 points credit in recognition of prior learning.
- Students requiring more than 72 credit points will receive course advice specifying additional units.

#### Course description:
The course addresses the challenges of achieving sustainable economic development on a global, national and local scale. It provides a comprehensive awareness of the development industry and its real-world applications in poverty reduction, project design and international organisations. Students are provided with a grounding in international development concepts, theories and approaches as well as the analytical and practical skills needed to engage with the complex challenges of contemporary international development. Students have the flexibility to either specialise in a particular area of interest, or to develop core skills and knowledge across three areas of specialisation.

#### Specialisations
Students nominate a specialisation on application:
- Economics of Development
- Development Policy and Practice
- Politics and Development
Master of International Journalism

UWA COURSE CODE  11590
CRICOS CODE  074966M
DURATION  1 – 1.5 years
INTAKE PERIOD  February
MODE OF STUDY  Coursework or coursework and dissertation
2015 TUITION FEE  AUD $28,500
APPLY  Online at www.uwa.edu.au/applynow
MORE INFORMATION  www.studyat.uwa.edu.au/m/int-journalism

ADMISSION REQUIREMENTS
A relevant bachelor’s degree of this University with an appropriate average in Level 3 units of the major, or equivalent as recognised by the Faculty.
Minimum English language competence – see page 106 for more information

Course description: The primary aim of the Master of International Journalism is to produce the best student journalists in the country, across all media formats – print, broadcast and digital. This degree will give students the ability to generate original journalism to a high industry standard, while at the same time encourage them to think critically about journalism in a global context. This focus on the international and domestic contexts means that graduates will be equipped to work anywhere in the world. Students will be exposed to leading journalists and scholars, providing a combination of theory and practical experience. Students will study in an environment that simulates industry and requires them to produce work for a real audience. On successful completion of this degree students will have a portfolio of published pieces that will aid in their transition to professional practice.

The course is designed for graduate students wishing to pursue a career in journalism. It will also greatly enhance the career prospects of those already working in the field and for those in professions related to but not directly involved in journalism, including media advisors, and communications and media strategy in government and business.

Graduate Certificate in International Relations

UWA COURSE CODE  12280
CRICOS CODE  069309J
DURATION  0.5 year
INTAKE PERIOD  February, July
MODE OF STUDY  Coursework

APPLY  Online at www.uwa.edu.au/applynow
MORE INFORMATION  www.studyat.uwa.edu.au/gc/int-relations

ADMISSION REQUIREMENTS
A relevant bachelor’s degree of this University with an appropriate average in Level 3 units of the major, or equivalent as recognised by the Faculty.
Minimum English language competence – see page 106 for more information

Course description: This course is intended for those who wish to undertake further study so that they can proceed to the Graduate Diploma and thence to the Master of International Relations.

Graduates will be able to critically apply key theories and concepts to understanding and tackling contemporary national and international policy problems.

Graduate Diploma in International Relations

UWA COURSE CODE  11380
CRICOS CODE  069310E
DURATION  1 year
INTAKE PERIOD  February, July
MODE OF STUDY  Coursework
TOTAL TUITION FEE 2015  AUD $28,500
APPLY  Online at www.uwa.edu.au/applynow
MORE INFORMATION  www.studyat.uwa.edu.au/gd/int-relations

ADMISSION REQUIREMENTS
A relevant bachelor’s degree of this University with an appropriate average in Level 3 units of the major, or equivalent as recognised by the Faculty.
Minimum English language competence – see page 106 for more information

Course description: The Graduate Diploma is intended for those who already hold a degree but wish to undertake further study to qualify for entry to the Master’s degree course or who wish to obtain advanced qualifications in the field of international relations.

The course explores and analyses the key realms of international relations theory, global governance, peace and security, political economy, international development, and identity and religion in world politics. The degree also includes opportunities to study regional politics and policies in greater depth.
Master of International Relations

UWA COURSE CODE 11580
CRICOS CODE 069311D
DURATION 1.5 years
INTAKE PERIOD February, July
MODE OF STUDY Coursework or coursework and dissertation
2015 TUITION FEE AUD $28,500
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/m/int-relations

ADMISSION REQUIREMENTS
A relevant bachelor’s degree of this University with an appropriate average in the Level 3 units of the major, or equivalent as recognised by the Faculty;

The Graduate Certificate or Graduate Diploma in International Relations of this University with an appropriate average or equivalent as recognised by the Faculty;

Minimum English language competence – see page 106 for more information

Course description: The Master of International Relations is a professionally-oriented degree that equips graduates with the advanced training and practical skills required for a range of careers that require expertise about our complex, dynamic and globalised world. The course prepares graduates for exciting careers in foreign affairs and diplomacy, government, international and non-governmental organisations, business, the media, and the education sector. There is a dissertation option for those students interested in in-depth study or a research career.

Graduates will be able to apply key theories and concepts to understanding contemporary national and international policy problems. The degree explores international relations theory, global governance, peace and security, political economy, development, and identity and religion in world politics. It also includes opportunities to study regional politics in greater depth, with particular focus on China, the Asia-Pacific, and Africa. Articulation is available within this study area. For more information, see page 9.

Master of Medieval and Early Modern Studies

UWA COURSE CODE 11530
CRICOS CODE 077552J
DURATION 2 years
INTAKE PERIOD February, July
MODE OF STUDY Coursework and dissertation
2015 TUITION FEE AUD $27,000
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/m/medieval-early-modern

ADMISSION REQUIREMENTS
A relevant bachelor’s degree of this University with an appropriate average in the Level 3 units of the major, or equivalent as recognised by the Faculty;

Minimum English language competence – see page 106 for more information

Course description: In this course students learn how to access, read and interpret primary documents in order to understand the medieval and early modern world, and to conduct their own research enquiries. Two core seminars introduce major skills and teach modern methods of accessing and interpreting major features of medieval and early modern history, literature, art and thought. A graded series of supervised research tasks, leading to a dissertation, prepares students for PhD study.

Graduate Certificate in Professional Archaeology – New in 2015

UWA COURSE CODE 12210
CRICOS CODE 084534G
DURATION 0.5 year
INTAKE PERIOD February, July
MODE OF STUDY Coursework
2015 TUITION FEE AUD $14,250
APPLY Online at www.uwa.edu.au/applynow

Course description: Social research methods skills are vital across a range of disciplines. This Graduate Diploma forms part of the Masters in Social Research Methods, which introduces students to key concepts in social science research methods and offers them the opportunity to develop their skills through application.

The Diploma provides students with an advanced understanding of a range of qualitative and quantitative research techniques used in the social sciences, from action research to surveys, to more innovative methods such as photovoice. It also covers the range of methodological approaches and ethical considerations. Students obtain first-hand experience with some of the methods, and learn to understand and critique social research. They also learn how to craft a research project, and how to identify sources of funding and develop funding proposals. Available in 2016 onwards.

ADMISSION REQUIREMENTS
A relevant bachelor’s degree of this University, with a major in the target language and an appropriate average in the Level 3 units of the major, or equivalent as recognised by the Faculty.
Minimum English language competence – see page 106 for more information

Course description: This course is designed to offer graduates the opportunity to become bilingual/multilingual professionals able to thrive in an ever-globalised job market. The course is approved by the National Accreditation Authority for Translators and Interpreters of Australia (NAATI). Specialised translation training and advanced language and cultural courses will be available between English and Chinese, French, German and Italian in both directions. It is constructed to offer systematic research training in a variety of real-life intercultural communication and language exchange programs in world-class partner universities in Beijing, Shanghai and Europe. The course will foster both critical thinking and practical analytical skills through frontier translation theories and latest technologies as well as the opportunity for individual supervision of a translation research project.

The UWA Business School is one of the premier business schools in the Asia-Pacific region. The School inspires and propels talented students from around the world to become the respected and innovative academic, community and business leaders of tomorrow.

We are one of only seven institutions in Australia to hold international accreditation from both EQUIS, the European Quality Improvement System and AACSB, the Association to Advance Collegiate Schools of Business. This ensures our degrees are recognised by employers worldwide, and guarantees the quality of our teaching, research and other operational areas.

The UWA Business School is home to more than 200 staff, servicing 5,750 undergraduate and postgraduate students. Overseen by a Board of highly respected business leaders, the School fosters outstanding links with corporate partners and alumni, enabling the delivery of a world-class education and thought leadership for our students.

Our major corporate partners include ATCO Australia, BHP Billiton, Ernst & Young, Macquarie Capital, PricewaterhouseCoopers, Wesfarmers and Woodside. These industry links enable us to provide a richer education for our students, and ensure our programs are relevant and valuable to industry.

Our postgraduate programs, including the popular Master of Business Administration, Master of Commerce and Master of Professional Accounting, are complemented by specialist coursework and research programs in business information management, economics, entrepreneurship and innovation, finance, human resources and employment relations, marketing and social impact.

The only institution in Western Australia to be internationally accredited through the European Quality Improvement System (EQUIS) and Association to Advance Collegiate Schools of Business (AACSB).

World leading professors, including the BHP Billiton Chair in the Business of Resources and Woodside Chair in Leadership and Management.

UWA Business School corporate partners include ATCO Australia, BHP Billiton, Ernst & Young, Mitsubishi Development, Wesfarmers and Woodside.

Over AUD $400,000 in scholarships and prizes awarded to Business School students each year.

In 2013, UWA Business School students were national winners of the Australian Tax Office video competition, runners-up in the Enactus National Championships, and grand finalists in the Schulich International Case Competition.

UWA Business School students complete exchange and internships around the world, including in Calgary, Copenhagen, Hong Kong, Los Angeles, Nottingham, Shanghai and more.

International alumni chapters in Asia, UK, US and Australia.

This course is suitable for both business and non-business graduates wishing to gain advanced skills across a broad range of business areas.

Specialisations
Students nominate a specialisation on application:
- Accounting
- Business information management
- Employment relations
- Finance
- Human resource management
- Marketing
### Master of Economics

**UWA COURSE CODE** 42620  
**CRICOS CODE** 003091A  
**DURATION** 2 years  
**INTAKE PERIOD** February, July  
**MODE OF STUDY** Coursework and dissertation  
**2015 TUITION FEE** AUD $33,000  
**APPLY** Online at [www.uwa.edu.au/applynow](http://www.uwa.edu.au/applynow)  
**MORE INFORMATION** [www.studyat.uwa.edu.au/m/economics](http://www.studyat.uwa.edu.au/m/economics)

**ADMISSION REQUIREMENTS**  
A bachelor’s degree of this University with a major in Economics with an appropriate average, or equivalent as recognised by the Faculty; or  
A Graduate Diploma in Economics of this University with a weighted average mark of 60 per cent, or equivalent as recognised by the Faculty;  
Minimum English language competence – see page 106 for more information

**Course description:** The Master of Economics is designed for those wishing to build on their existing qualifications in Economics. Many Master of Economics graduates choose to pursue careers as economic researchers and decision makers, while the course is also useful to teachers seeking to improve their professional qualifications through postgraduate studies.  
Topics covered include microeconomics, macroeconomics, international economics, financial economics, resource economics, public economics, quantitative economics, economic history and economic development.

### Master of Marketing

**UWA COURSE CODE** 41690  
**CRICOS CODE** 083273K  
**DURATION** 2 years  
**INTAKE PERIOD** February, July  
**MODE OF STUDY** Coursework  
**2015 TUITION FEE** AUD $33,000  
**APPLY** Online at [www.uwa.edu.au/applynow](http://www.uwa.edu.au/applynow)  
**MORE INFORMATION** [www.studyat.uwa.edu.au/m/marketing](http://www.studyat.uwa.edu.au/m/marketing)

**ADMISSION REQUIREMENTS**  
A bachelor’s degree of this University with an appropriate average mark, or equivalent as recognised by the Faculty;  
Minimum English language competence – see page 106 for more information

**Course description:** The Master of Marketing is suitable for both marketing professionals, as well as those wishing to move into the field.  
Topics covered in this course include advertising, company strategy, competitive analysis, and value creation. Marketing students at UWA have the opportunity to undertake projects for real-life organisations and have previously worked with companies including Coles, Google, Microsoft, Rio Tinto, Tourism WA, Transperth and Westpac.

### Master of Professional Accounting

**UWA COURSE CODE** 40610  
**CRICOS CODE** 063104D  
**DURATION** 2 years  
**INTAKE PERIOD** February, July  
**MODE OF STUDY** Coursework  
**2015 TUITION FEE** AUD $36,000  
**APPLY** Online at [www.uwa.edu.au/applynow](http://www.uwa.edu.au/applynow)  
**MORE INFORMATION** [www.studyat.uwa.edu.au/m/prof-accounting](http://www.studyat.uwa.edu.au/m/prof-accounting)

**ADMISSION REQUIREMENTS**  
A bachelor’s degree of this University with an appropriate average mark, or equivalent as recognised by the Faculty;  
Minimum English language competence – see page 106 for more information

**NOTE**  
Applicants who have a bachelor’s degree with a major in Accounting from this University or equivalent as recognised by the Faculty, will not be accepted into the course

**Course description:** The Master of Professional Accounting provides training in the technical aspects of the preparation of accounting data; develops students’ skills in the application of accounting information to solving problems and making decisions; and develops knowledge and skills in related professional disciplines such as finance, taxation, auditing and management.  
The course is recognised by CPA Australia, the Institute of Chartered Accountants in Australia, and the Institute of Public Accountants.

### Master of Human Resources and Employment Relations

**UWA COURSE CODE** 41660  
**CRICOS CODE** 083269F  
**DURATION** 2 years  
**INTAKE PERIOD** February, July  
**MODE OF STUDY** Coursework  
**2015 TUITION FEE** AUD $33,000  
**APPLY** Online at [www.uwa.edu.au/applynow](http://www.uwa.edu.au/applynow)  
**MORE INFORMATION** [www.studyat.uwa.edu.au/m/hr-relations](http://www.studyat.uwa.edu.au/m/hr-relations)

**ADMISSION REQUIREMENTS**  
A bachelor’s degree of this University with an appropriate average mark, or equivalent as recognised by the Faculty;  
Minimum English language competence – see page 106 for more information

**Course description:** The Master of Human Resources and Employment Relations (HRER) provides students with the specialist knowledge and expertise to work in human resource management or related fields such as industrial relations, recruitment, employee development or human resources planning.  
Topics include broad introductory units in HRER, together with specialised units in areas such as assessment and selection, strategic human resource management, negotiation, managing workplace diversity, and international employment relations.
Faculty at a glance

Ranked 33rd in the world and 7th in Australia according to the QS World University Rankings by Subject.

Highest employer reputation scores out of all Western Australian Education faculties according the QS World University Rankings by Subject.

Achieved a course experience satisfaction rating of 85.7% and graduate qualities scale rating of 84.5% in the Course Education Index Questionnaire.

Expert lecturers guide students on leading best practice – 91% of academic staff have a Doctoral qualification.

Students have access to a state-of-the-art Education library.

There are 17 prizes and 8 scholarships available each year to high-achieving students.

First-year Master of Teaching students are provided an iPad to enhance their learning.

ADMISSION REQUIREMENTS
A bachelor’s degree of this University; a postgraduate course in education requiring at least one year of full-time study; and either two years’ full-time relevant professional experience or adequate research preparation demonstrated to the satisfaction of the Faculty; or
The Bachelor of Education of this University; and either two years’ full-time relevant professional experience or adequate research preparation demonstrated to the satisfaction of the Faculty; or
A degree requiring at least four years of full-time study; and two years’ full-time professional experience in the field of education; and adequate research preparation demonstrated to the satisfaction of the Faculty; or
A graduate diploma of this University that articulates with the Master of Educational Leadership; with an average of at least 65% in three coursework units in said graduate diploma, including a mark of at least 65% in EDUC5631 Approaches to Research.
The Faculty may also accept into the course an applicant who
(i) has completed at least three units towards either a graduate diploma referred to above, or towards another relevant graduate diploma of the Faculty; and
(ii) has completed units relevant to the requirements of the master’s course; and
(iii) has achieved an average mark of at least 65% in three coursework diploma units including a mark of at least 65% in EDUC5631 Approaches to Research;
Minimum English language competence – see page 106 for more information

Course description: This course is aimed at educators who are either current or aspiring leaders in their organisations. Participants are introduced to theory in national and international educational practices, and are then encouraged to connect these considerations with their own experiences through the sharing of ideas and information. The course provides participants with comprehensive preparation in conceptualising, conducting and reporting research, especially as applied to the substantive area of educational leadership.
**Secondary**: Candidates must have a degree with a major in the subject that they wish to teach and which can be found in the school curriculum. This course aims to graduate highly skilled professionals who have the key practical skills required for effective secondary teaching, informed by current theory and research.

As there is a severe shortage of secondary Mathematics, Physics and Languages Other Than English (LOTE) teachers in Australian schools, we particularly encourage students with qualifications in those areas to consider a career in teaching. [www.studyat.uwa.edu.au/m/teaching-secondary](http://www.studyat.uwa.edu.au/m/teaching-secondary)

**Graduate Diploma in Education (Secondary)**

**UWA COURSE CODE** 31400

**MORE INFORMATION** [www.studyat.uwa.edu.au/gd/education](http://www.studyat.uwa.edu.au/gd/education)

**ADMISSION REQUIREMENTS**

A relevant degree of this University with a major relevant to secondary teaching curriculum majors offered by the Faculty, or equivalent as recognised by the Faculty, at a level of academic achievement considered by the Faculty to be sufficient to permit satisfactory completion of the course;  
Minimum English language competence – see page 106 for more information

**NOTE**

Applicants must also provide a personal statement at the point of application.  
A National Criminal Record Check and a Working with Children Clearance must be presented to the Graduate School of Education before any student undertakes a professional practice unit.

● July intake not available to international students.

**Course description**: This course is for graduates aspiring to careers as secondary school teachers or school psychologists. The course prepares highly skilled professionals who have the practical skills required for effective secondary teaching, informed by current theory and research. Candidates must have a degree with a major in the subject that they wish to teach and which can be found in the school curriculum. As there is a severe shortage of secondary Mathematics, Physics and Languages Other Than English (LOTE) teachers in Australian schools, we particularly encourage students with an undergraduate degree in those areas to consider a career in teaching.

The Graduate Diploma in Education will be available at UWA through the end of 2017. This is part of an Australia-wide effort to enhance graduate teaching standards. Applicants from 2015 to 2017 are encouraged to consider the Master of Teaching (Secondary).

A three-year bachelor’s degree and one-year full-time postgraduate course in education and either two years’ full-time relevant professional experience or demonstrated research capacity acceptable to the Faculty; or
A four-year Bachelor of Education degree and either two years’ full-time relevant professional experience or demonstrated research capacity acceptable to the Faculty; or
A degree requiring at least four years of full-time study and two years’ full-time professional experience in the field of education and demonstrated research capacity acceptable to the Faculty; or
A graduate diploma of this University that articulates with the Master of Education;
Minimum English language competence – see page 106 for more information

Course description: This course is aimed at professionals and researchers in education, and led by experts in the field of educational leadership. The course introduces participants to theory as well as national and international educational practices. Participants can then connect these considerations with their own experiences and, through dialogue and the sharing of ideas and information, broaden their knowledge and enhance their capabilities. The course also provides an opportunity for participants to develop specialised research skills as a foundation for further professional investigation in the substantive area of educational leadership. Articulation is available within this study area. For more information, see page 9.

The Faculty of Engineering, Computing and Mathematics has an international reputation for producing world-class graduates who are creative, original and enterprising.

The Faculty is home to approximately 380 staff and 3500 students—270 of whom are completing a higher degree by research, 300 studying postgraduate coursework programs and more than 2900 enrolled in undergraduate courses.

The Faculty’s research teams benefit from global collaborations and attract a research income of more than AUD $27 million a year – well above the national average. The Faculty has also developed strong links and partnerships with industry to ensure new technologies and strategies are developed to benefit the global community.

Some of our recent research successes include the O-tube pipeline research team winning the 2014 Australian Industrial Research Group (ARG) Medal for Australasian Major Industry Technological Innovation; Professor George Milne and his team won the Western Australian Information Technology and Telecommunications Award (WAITTA) and Asia Pacific Information and Communication Technology Alliance (APICTA) Award in Hong Kong for research into bushfire modelling; and Professor Yinong Liu and a team of researchers from Australia, China and the US creating a super strong metallic composite by harnessing the extraordinary mechanical properties of nanowires.

Well-established links between the Faculty and industry mean that our graduates enjoy excellent career prospects, showcased by an impressive list of high-profile graduates. Some of the recent achievements of our staff and students include:

- Professor Cheryl Praeger elected Foreign Secretary of the Australian Academy of Science and elected as an Honorary Member of the London Mathematical Society
- Professor Mark Cassidy accepting an Australian Laureate Fellowship from the Minister for Innovation, Industry, Science and Research
- Professor David Sampson elected as a Fellow of the prestigious international society for optics and photonics (SPIE) and also a Fellow of the international authority on optics and photonics, the prestigious Optical Society (OSA)
- The Optical+Biomedical Engineering Laboratory winning a Cancer Council Western Australia AUD $99,537 grant to support critical work on a new breast cancer detection tool
- Professor Mark Randolph named ‘2013 WA Scientist of the Year’ for his contribution to technical solutions for the offshore oil and gas industry
- Professor David White holding the Shell EMI Professorial Chair in Offshore Engineering, strengthening the world-class research and education in WA’s offshore petroleum industry
- UWA teams receiving the Overall Champion Award at the national Engineers Without Borders competition four times in the past five years
- Three engineering graduates being awarded Rhodes Scholarships in the past five years.

ADMISSION REQUIREMENTS
A UWA bachelor’s degree with a major in Engineering Science, or equivalent as recognised by the Faculty, or
A recognised bachelor’s degree or equivalent, with an appropriate average as recognised by the Faculty, and prior studies in engineering, mathematics or physics.
Minimum English language competence – see page 106 for more information

NOTE
The course duration will be 2-3 years for graduates without previous studies in engineering or students without required units from prior study. Recognition of prior learning and/or application for credit ("advanced standing") will be assessed by the University on a case-by-case basis at the time of application.

Course description: This course is aimed at students who have completed undergraduate studies in engineering, maths or physics and who want to gain an internationally recognised qualification to practise as a professional engineer. The course, designed in consultation with industry, equips you with both outstanding technical and leadership skills and the ability to work creatively as part of a team across the breadth of an engineering challenge in your area of specialisation.

Specialisations
Students nominate specialisation on application:
- Civil Engineering
- Chemical Engineering
- Electrical and Electronic Engineering
- Environmental Engineering
- Mechanical Engineering
- Mining Engineering
- Software Engineering.

ADMISSION REQUIREMENTS

- An engineering degree accredited at professional level by Engineers Australia of a minimum of 4 years duration with a weighted average mark of at least 65%, or equivalent as recognised by the Faculty; or
- An engineering degree equivalent to a 3-year degree in Australia with an appropriate average or equivalent as recognised by the Faculty;
- Minimum English language competence – see page 106 for more information

Course description: This course is aimed at engineering graduates who are seeking a career in the oil and gas industry. The course provides students with industry-relevant advanced knowledge about technical implementation and leadership in the oil and gas industry. A particular focus is placed on natural gas, both its extraction and subsequent conversion to Liquefied Natural Gas (LNG). Students will also develop professional levels of skill in a range of key areas including petroleum engineering, gas economics, investment strategies and liabilities, work-flow concepts, and current production and processing technologies.

ADMISSION REQUIREMENTS

- A bachelor’s degree of this University with a major in a non-cognate area, completed with an appropriate average or equivalent as recognised by the Faculty;
- Passed WACE Mathematics 2C/2D or equivalent;
- Minimum English language competence – see page 106 for more information

Course description: This course is aimed at students and professionals who have a tertiary degree in a discipline other than computing, and who seek to develop advanced skills in computing and information systems. Graduates of this course will have the knowledge and skills to anticipate the changing direction of IT and evaluate and communicate the effectiveness of new technologies in order to help an organisation achieve its goals and objectives. The course has a strong emphasis on the application of contemporary and emerging technologies, including cloud and high performance computing, agile web development and software project design and management.
FACULTY OF LAW

Research Degrees

LEGAL PRACTICE
Graduate Diploma in Legal Practice 63

MINING AND ENERGY LAWS
Master of Mining and Energy Laws 64

ENTRY DETAILS
Intake period: Many of the postgraduate law courses listed have multiple intake periods as they contain units that are taught intensively. An intensive unit is taught in a compressed time frame, e.g. on consecutive days over a period of two weeks. For the rest of the semester, students work on their final assessment with follow-up and discussion with academic staff if required.
Admissions process: See page 110 for more information

This course is intended for students with overseas law degrees.
The UWA Faculty of Law has a long tradition of providing high-quality legal education and undertaking progressive, high-impact research. The Faculty’s teaching programs have been designed to flexibly meet the needs of law graduates and non-lawyers. The core research business of the Faculty is legal analysis and advice as well as the development of reform proposals in the field of law and legal policy.

The Faculty is home to a number of research clusters in a range of domestic and international, public and private law areas such as business law, intellectual property law, alternative dispute resolution and international law. With a wealth of specialist expertise and a willingness to listen to the needs of government, industry and communities, members of the Faculty have well-established relationships with a range of international organisations and scholars, government bodies, peak industry groups and key private sector players.

Areas of collaborative research include:
- Water resources law;
- Security of tenure for seniors;
- International environmental law; and
- Mineral, energy and resources law.

Exceptional UWA Law graduates include former Prime Minister of Australia Bob Hawke AC; Michael Abbott, General Counsel for Woodside Energy Ltd; Sarah Beshar, partner at Davis Polk & Wardwell LLP in New York; and Karyl Nairn QC, Global Head of Skaddens Arps’ International Litigation and Arbitration Group in London; Chief Justice of the High Court of Australia; the Chief Justice of the Supreme Court of WA; Federal and State members of parliament; managing partners of law firms and in house counsel for major corporations.

Over 80 years of academic excellence and over 7,000 graduates.

Connections to the University of Oxford that allow Juris Doctor students to complete 5 semesters at UWA and then undertake the Bachelor of Civil Laws (BCL) (which is actually a postgraduate program) or Masters of Law and Finance (MLF) over one further year.

MORE INFORMATION www.studyat.uwa.edu.au/d/juridical-sci

ADMISSION REQUIREMENTS
A recognised Bachelor of Laws degree with first or upper second class honours; or
A recognised Master of Laws degree with an average mark of at least 65% or equivalent including a 12-point research project; or
A recognised Bachelor of Laws degree and demonstrated adequate research preparation, either as part of a degree course, in the course of an occupation since graduation, or by satisfactory completion of an acceptable preliminary course;
The equivalent of at least two years’ professional experience in law;
Minimum English language competence – see page 106 for more information

Course description: This is a professional research doctorate consisting of a combination of coursework units and a thesis. A program of study can be tailored to the student’s area of interest.

PROFESSIONAL PRACTICE DEGREE

Juris Doctor

UWA COURSE CODE 20820
CRICOS CODE 072184B
DURATION 3 years
INTAKE PERIOD February
MODE OF STUDY Coursework
2015 TUITION FEE AUD $37,000
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/d/juris-doctor

ADMISSION REQUIREMENTS
A bachelor’s degree from this University or equivalent as recognised by the Faculty;
A Grade Point Average (GPA) of at least 5.5 (out of 7.0) or equivalent, across all completed tertiary studies;
Completed and submitted a Law School Admissions Test (LSAT) score;
Minimum English language competence – see page 106 for more information

NOTE
Applicants for the Juris Doctor will be ranked based upon the GPA and the LSAT score, weighted equally;
Admission to the Juris Doctor will be awarded to the highest ranked applicants who fall within the intake quota for that year.

Course description: This professional practice coursework program is for non-law discipline graduates interested in obtaining the academic qualification necessary to practice Law in Australia. The course focuses on the teaching and learning of legal skills, including drafting, legal research and advocacy.
COURSEWORK DEGREES

Graduate Diploma in Chinese Business Law – New in 2015

The Faculty of Medicine, Dentistry and Health Sciences offers courses, training and research opportunities in a wide range of scientific and clinical disciplines, to significantly benefit the health of Australian and international communities.

As a research oriented faculty we encourage the lifelong adaptation and assessment of new theories, treatments and diagnostic techniques that incorporate a holistic approach to the health sciences, and a more sensitive interaction with patients.

Our courses are continuously reviewed to ensure they match the needs of the community.

The Faculty’s areas of research priority are:
- Developmental origins of health and disease
- Aboriginal health
- Genomic medicine (pharmaco-genomics and pharmaco-epidemiology)
- Management of chronic diseases
- Mental health.

Many faculty research staff are leaders in their field nationally and internationally.

## Admission Requirements
- Please refer to page 11
- Minimum English language competence – see page 106 for more information

## Course Description
- Medicine and Dentistry graduates interested in pursuing research may benefit from this course. It provides training in the practical aspects of patient-oriented research, including the ethics of clinical research and effective communication of clinical research results through the core disciplines of clinical investigation, epidemiology and biostatistics.

- For health professionals who seek to develop their knowledge and skills in health professional education. Fundamental issues in health professional education are addressed by fostering interdisciplinary discussion and collaboration, whilst developing knowledge and skills as educators within their field. Articulation is available within this study area. For more information, see page 9.
### Doctor of Podiatry

- **UWA COURSE CODE**: 90820
- **CRICOS CODE**: 064876G
- **DURATION**: 3 years
- **INTAKE PERIOD**: February
- **MODE OF STUDY**: Research and coursework
- **2015 TUITION FEE**: AUD $48,100

**ADMISSION REQUIREMENTS**
- The Bachelor of Podiatric Medicine from this University, or equivalent as recognised by the Faculty;
- At least one year’s relevant professional experience;
- Minimum English language competence – see page 106 for more information

**Course description**: This is for qualified podiatrists interested in pursuing research that will result in the publication of an original thesis. Topics covered include biostatistics and research methodologies, practical aspects of extended patient care, and patient-oriented research, which includes the ethics and communication of research.

### Master of Rural and Remote Medicine (Research)

- **UWA COURSE CODE**: 90780
- **CRICOS CODE**: 058925J
- **DURATION**: 2 years
- **INTAKE PERIOD**: Any time during the academic year
- **MODE OF STUDY**: Research
- **2015 TUITION FEE**: AUD $47,000

**ADMISSION REQUIREMENTS**
- Qualifications equivalent to a Bachelor of Medicine and a Bachelor of Surgery, plus either completion of Fellowship training in the appropriate specialist college or enrolment in such training;
- An applicant must demonstrate that they have fulfilled the requirements of the Policy on Adequate Research Preparation see [www.postgraduate.uwa.edu.au/schools/research-preparation](http://www.postgraduate.uwa.edu.au/schools/research-preparation)
- Suitable resources and supervision arrangements must be approved by the School in which the student is enrolling;
- Minimum English language competence – see page 106 for more information

**Course description**: The Master of Rural and Remote Medicine is a broad-based degree for students wishing to pursue a career in research focusing on rural and remote medicine. As rural and remote medicine is a generalist discipline, the range of research topics is very wide, from large-scale epidemiological studies to educational and qualitative or clinical studies.

### Master of Rural and Remote Medicine

- **UWA COURSE CODE**: 90680
- **CRICOS CODE**: 058922A
- **DURATION**: 1.5 years
- **INTAKE PERIOD**: February, July
- **MODE OF STUDY**: Thesis and coursework
- **2015 TUITION FEE**: AUD $32,900

**ADMISSION REQUIREMENTS**
- The Bachelor of Medicine and Bachelor of Surgery from this University, or equivalent as recognised by the Faculty;
- A completed, or completing fellowship training in a primary care or equivalent specialty college; or
- A level of prior professional rural experience which, in the opinion of the Faculty, would enable the applicant to complete the course; or
- Completed the Graduate Certificate in Rural and Remote Medicine from this University;
- Minimum English language competence – see page 106 for more information

**Course description**: This course is aimed at medical graduates with an interest in rural and remote medicine who wish to pursue a career in research or teaching. As this is a generalist discipline, the range of research topics is expansive; from large-scale epidemiological studies to educational, qualitative or clinical studies. Articulation is available within this study area. For more information, see page 9.

### Master of Advanced Social Work

- **UWA COURSE CODE**: 10750
- **CRICOS CODE**: 003324M
- **DURATION**: 1 year
- **INTAKE PERIOD**: Any time during the academic year
- **MODE OF STUDY**: Research
- **2015 TUITION FEE**: AUD $28,900

**ADMISSION REQUIREMENTS**
- A Bachelor of Social Work plus a Graduate Diploma in Advanced Social Work or equivalent; and
- At least two years’ experience as a professionally qualified social worker;
- An applicant must demonstrate that they have fulfilled the requirements of the Policy on Adequate Research Preparation and any other requirements for admission of the University, see [www.postgraduate.uwa.edu.au/schools/research-preparation](http://www.postgraduate.uwa.edu.au/schools/research-preparation)
- Minimum English language competence – see page 106 for more information

**Course description**: Designed for graduates and professionals working in social work or social administration who would like to gain further professional and research skills.
**PROFESSIONAL DEGREES**

</table>

**ADMISSION REQUIREMENTS**

A bachelor’s degree of this University with a Grade Point Average of at least 5.5 or equivalent as recognised by the Faculty;

A minimum GAMSAT score of 50 overall and 50 in each section;

An interview;

Minimum English language competence – see page 106 for more information

**Course description:** This professional practice doctorate provides suitably qualified graduates with the knowledge and skills to enter the Dentistry profession upon completion. Studies cover fundamental dental and medical sciences together with clinical practice modules including patient care, preventative and conservative dentistry, restorative dentistry and child and adolescent dental health. There is early clinical contact from first year. Students actively engage in a research project in the third year, whilst the final year is occupied by quasi-independent but supervised practice which takes place inside and outside of the School, with compulsory rural and private practice rotations.

A Bachelor of Social Work of this University with first or upper second class honours, or equivalent as recognised by the Faculty; or

The Master of Social Work (by coursework and dissertation) of this University with Distinction or High Distinction, or equivalent as recognised by the Faculty; or

The Graduate Diploma in Advanced Social Work of this University with a weighted average mark of at least 70%, or equivalent as recognised by the Faculty; or

The Master of Advanced Social Work of this University, or equivalent as recognised by the Faculty; or

The Master of Arts (Social Work) of this University, or equivalent as recognised by the Faculty; and

The equivalent of at least two years’ full-time post-qualified professional practice experience;

Minimum English language competence – see page 106 for more information

**Course description:** This is an advanced research course for qualified social workers committed to their continuing professional education. Students gain high-calibre research skills and experience as they work alongside an expert researcher on a chosen project.
Course description: UWA's professional practice doctorate is for students wishing to enter the medical profession as a doctor. Each student undertakes a scholarly activity in three streams of research, coursework and/or service learning. This is done simultaneously with the core medical rotations in Internal Medicine, Surgery, Psychiatry, General Practice, Women’s and Infant’s Health, and Paediatrics and Child Health. Further rotations are taken in Emergency Medicine, Internal Medicine, Surgery, Cancer, Pain and Palliative Care, Anaesthetics, Rural General practice and an elective.

A Bachelor of Dental Science from this University, or equivalent as recognised by the Faculty; or

A bachelor’s degree from this University containing a significant component of dental health related coursework, or equivalent as recognised by the Faculty; and at least two years’ relevant experience in public or primary dental health.

Minimum English language competence – see page 106 for more information

**Course description:** The Graduate Diploma of Dental Public and Primary Health is designed to be an appropriate broad-based course of study for a person who wishes to advance their knowledge of dental public and primary health.

### Specialisations

Students nominate specialisation on application:

- Endodontics
- Oral Medicine and Oral Pathology
- Orthodontics
- Periodontics
- Paediatric Dentistry
Master of Dental Public and Primary Health

UWA COURSE CODE 80530
CRICOS CODE 051555J
DURATION 2 years
INTAKE PERIOD February, July
MODE OF STUDY Coursework and dissertation
2015 TUITION FEE AUD $32,900
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/m/dental-pub-prim-health

ADMISSION REQUIREMENTS
The Bachelor of Dental Science of this University, or equivalent as recognised by the Faculty; or
A bachelor’s degree from this University containing a significant component of dental health related coursework, or equivalent as recognised by the Faculty; and
At least two years’ relevant experience in public or primary dental health; or
The Graduate Diploma in Dental Public and Primary Health;
Minimum English language competence – see page 106 for more information

NOTE
Students who hold the Graduate Diploma in Dental Public and Primary Health (80330) (Public Dental Health stream) are given advanced standing.

Course description: This field of study is aimed at dentistry and dental health graduates interested in advancing their dental public and primary health knowledge and skills. Articulation is available within this study area. For more information, see page 9.

Graduate Diploma in Forensic Odontology

UWA COURSE CODE 91350
CRICOS CODE 058212J
DURATION 1 year
INTAKE PERIOD February
MODE OF STUDY Coursework
TOTAL 2015 TUITION FEE AUD $52,300
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/gd/forensic-odontontology

ADMISSION REQUIREMENTS
The Bachelor of Dental Science from this University, or equivalent as recognised by the Faculty;
At least two years’ experience in the practice of general dentistry;
Minimum English language competence – see page 106 for more information

Course description: Designed for qualified dentists and those with a background in other disciplines who are keen to develop their knowledge and research skills in forensic odontology. The following areas are covered: dealing independently with all routine forensic odontological casework; the efficient referral of cases of special difficulty outside or beyond their expertise; functioning under supervision as a member of a Disaster Victim Identification (DVI) team; the independent preparation of evidence for presentation to courts of law; and being aware of their own need for further education.

Graduate Certificate in Health Professional Education

UWA COURSE CODE 90210
CRICOS CODE 058206G
DURATION 0.5 year
INTAKE PERIOD February
MODE OF STUDY Coursework
TOTAL 2015 TUITION FEE AUD $16,450
APPLY Online at www.uwa.edu.au/applynow

ADMISSION REQUIREMENTS
The degree of Bachelor of Medicine and Bachelor of Surgery from this University, or equivalent as recognised by the Faculty; or
An undergraduate degree in a health-related discipline from this University or another recognised institution;
A level of health-related education and a duration and level of professional experience which, in the opinion of the Faculty, would enable the applicant to complete the course;
Minimum English language competence – see page 106 for more information

Course description: For health professionals who seek to develop their knowledge and skills in health professional education. Fundamental issues in health professional education are addressed by fostering interdisciplinary discussion and collaboration, whilst developing knowledge and skills as educators within their field. Articulation is available within this study area. For more information, see page 9.
Graduate Diploma in Health Professional Education

- **UWA COURSE CODE**: 91340
- **CRICOS CODE**: 058207F
- **DURATION**: 1 year
- **INTAKE PERIOD**: February
- **MODE OF STUDY**: Coursework
- **TOTAL 2015 TUITION FEE**: AUD $32,900
- **APPLY**: Online at [www.uwa.edu.au/applynow](http://www.uwa.edu.au/applynow)

**ADMISSION REQUIREMENTS**

- The Bachelor of Medicine and Bachelor of Surgery from this University, or equivalent as recognised by the Faculty; or
- An undergraduate degree in a health-related discipline from this University or another recognised institution; or
- A level of health-related education and a duration and level of professional experience which, in the opinion of the Faculty, would enable the applicant to complete the course; or
- Completed the Graduate Certificate in Health Professional Education from this University with an average mark of at least 65% in all core units;

**Minimum English language competence** – see page 106 for more information

**Course description**: For health professionals who seek to develop their knowledge and skills in health professional education. Fundamental issues in health professional education are addressed by fostering interdisciplinary discussion and collaboration, whilst developing knowledge and skills as educators within their field. Articulation is available within this study area. For more information, see page 9.

Master of Health Science – New in 2015

- **UWA COURSE CODE**: 71540
- **CRICOS CODE**: 083862M
- **DURATION**: 1.5 – 2 years
- **INTAKE PERIOD**: February, July
- **MODE OF STUDY**: Coursework or coursework and dissertation
- **2015 TUITION FEE**: AUD $25,000
- **APPLY**: Online at [www.uwa.edu.au/applynow](http://www.uwa.edu.au/applynow)
- **MORE INFORMATION**: [www.studyat.uwa.edu.au/m/health-sci](http://www.studyat.uwa.edu.au/m/health-sci)

**ADMISSION REQUIREMENTS**

A bachelor's degree with a major in a biomedical or health science discipline that aligns with one of the specialisations of the Master's program;

**Minimum English language competence** – see page 106 for more information

**NOTE**

- Students with a bachelor’s degree or major in a cognate (related) area of study will be granted up to 24 points credit in recognition of prior learning.
- Students requiring more than 72 credit points will receive course advice specifying additional units.

**Course description**: The structure of this degree provides students with a unique, integrated combination of three key platforms: public health, advanced study in a related science discipline, and an industry practicum.

The degree encompasses a range of biomedical and health disciplines crucial to human health and wellbeing. These are complimented by a Public Health focus (i.e. health promotion, research, policy and administration). A practicum within a health related enterprise is a core component of this degree. This degree is taught by both the Faculties of Science and Faculty of Medicine, Dentistry and Health Sciences.

**Specialisations**

Students nominate specialisation on application:

- Biochemistry and Molecular Biology
- Exercise and Health
- Human Biology
- Neuroscience

**INTAKE PERIOD**: February, July  
**MODE OF STUDY**: Coursework and dissertation  
**2015 TUITION FEE**: AUD $35,500  
**APPLY**: Online at www.uwa.edu.au/applynow  
**MORE INFORMATION**: www.studyat.uwa.edu.au/m/infectious-diseases

**ADMISSION REQUIREMENTS**
- The Bachelor of Science of this University in a biomedical, biological or related area of science, or equivalent as recognised by the Faculty; or
- The Bachelor of Medicine and Bachelor of Surgery of this University, or equivalent as recognised by the Faculty; or
- The Bachelor of Dental Science of this University, or equivalent as recognised by the Faculty; or
- A degree in applied biomedical science or public health (medical technology, nursing, pharmacy, public health or veterinary science), or equivalent as recognised by the Faculty;
- Minimum English language competence – see page 106 for more information

**Course description**: This course is aimed at science based and medical professionals seeking advanced training in the field of infectious diseases. Topics covered include Medical Microbiology, Tropical Infectious Diseases and Public and Environmental Health Microbiology, with an emphasis on practical classes in PathWest laboratories. Articulation is available within this study area. For more information, see page 9.

Doctor of Philosophy and Master of Infectious Diseases

**UWA COURSE CODE**: 01810/52520  
**CRICOS CODE**: 061839C  
**DURATION**: 4 years  
**INTAKE PERIOD**: February  
**MODE OF STUDY**: Coursework only and thesis only  
**2015 TUITION FEE**: AUD $34,700  
**APPLY**: Online at www.uwa.edu.au/applynow  
**MORE INFORMATION**: www.studyat.uwa.edu.au/c/infectious-diseases

**ADMISSION REQUIREMENTS**
- Applicants who have previously undertaken work, which is of a sufficiently high standard, towards a research higher degree in this or another approved institution but have not submitted it for any degree and have had their research proposals approved as accepted by the Board of the Graduate Research School and the Faculty of Medicine, Dentistry and Health Sciences;
- Minimum English language competence – see page 106 for more information

**Course description**: This course enables students to undertake a combined PhD (in their chosen discipline) with the Master of Infectious Diseases.
Graduate Certificate in Population Health Studies

UWA COURSE CODE 91230
CRICOS CODE 074756K
DURATION 0.5 year
INTAKE PERIOD February, July
MODE OF STUDY Coursework
TOTAL 2015 TUITION AUD $16,450
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/gc/pop-health

ADMISSION REQUIREMENTS
A bachelor’s degree from this University, or equivalent as recognised by the Faculty;
A level of education and a duration and level of professional experience which, in the opinion of the Faculty, would enable the applicant to complete the course; or
Successfully completed two postgraduate PUBH units taken through UWA Access as Continuing Education units;
Minimum English language competence – see page 106 for more information

Course description: This is designed as a pathway for those who wish to enrol in a Master of Public Health but do not meet the educational requirements. The course allows for maximum flexibility to tailor studies in order to meet your personal or professional interests.

Master of Public Health (Coursework)

UWA COURSE CODE 92550
CRICOS CODE 075827C
DURATION 2 years
INTAKE PERIOD February, July
MODE OF STUDY Coursework
2015 TUITION FEE AUD $32,900
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/m/public-health

ADMISSION REQUIREMENTS
A bachelor’s degree from this University, or equivalent as recognised by the Faculty;
The Graduate Certificate in Population Health Studies from this University with a weighted average mark of at least 60 % or equivalent as recognised by the Faculty;
Minimum English language competence – see page 106 for more information

Course description: Public Health studies provide a foundation in the disciplines of epidemiology, biostatistics, health economics and health promotion for current professionals interested in moving into a wide range of health related industries. Studies also focus on the broader social context in which public health programs are planned, delivered and evaluated.

Specialisations
Students nominate specialisation on application:
» Practice
» Research Methods

Master of Public Health (Coursework and dissertation)

UWA COURSE CODE 92560
CRICOS CODE 075828B
DURATION 2 years
INTAKE PERIOD February, July
MODE OF STUDY Coursework and dissertation
2015 TUITION FEE AUD $32,900
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/m/public-health.cd

ADMISSION REQUIREMENTS
A bachelor’s degree from this University, or equivalent as recognised by the Faculty;
The Graduate Certificate in Population Health Studies from this University, or equivalent as recognised by the Faculty;
Minimum English language competence – see page 106 for more information

Master of Public Health

**UWA COURSE CODE**
91550

**CRICOS CODE**
003032A

**DURATION**
1.5 years

**INTAKE PERIOD**
February, July

**MODE OF STUDY**
Coursework or coursework and dissertation

**2015 TUITION FEE**
AUD $32,900

**APPLY**
Online at www.uwa.edu.au/applynow

**MORE INFORMATION**
www.studyat.uwa.edu.au/m/public-health.ccd

**ADMISSION REQUIREMENTS**
A bachelor’s degree from this University, or equivalent as recognised by the Faculty; or

The Graduate Certificate in Population Health Studies from this University with a weighted average mark of at least 60%, or equivalent as recognised by the Faculty;

Minimum English language competence – see page 106 for more information

**Course description:** Public Health studies provide a foundation in the disciplines of epidemiology, biostatistics, health economics and health promotion for current professionals interested in moving into a wide range of health related industries. Studies also focus on the broader social context in which public health programs are planned, delivered and evaluated.

Graduate Certificate in Rural and Remote Medicine

**UWA COURSE CODE**
90220

**CRICOS CODE**
058921B

**DURATION**
0.5 year

**INTAKE PERIOD**
February, July

**MODE OF STUDY**
Coursework

**TOTAL 2015 TUITION FEE**
$16,450

**APPLY**
Online at www.uwa.edu.au/applynow

**MORE INFORMATION**
www.studyat.uwa.edu.au/gc/rural-remote-med

**ADMISSION REQUIREMENTS**
The degree of Bachelor of Medicine and Bachelor of Surgery from this University, or equivalent as recognised by the Faculty; and

Completed or be undertaking fellowship training in a primary care or equivalent specialty college; or a level of prior professional rural experience which, in the opinion of the Faculty, would enable the applicant to complete the course;

Minimum English language competence – see page 106 for more information

**Course description:** This is aimed at medical graduates with an interest in rural and remote medicine who wish to pursue a career in research or teaching. As this is a generalist discipline, the range of research topics is expansive; from large-scale epidemiological studies to educational, qualitative or clinical studies. Articulation is available within this study area. For more information, see page 9.

Graduate Diploma in Advanced Social Work

**UWA COURSE CODE**
10370

**CRICOS CODE**
024808F

**DURATION**
1 year

**INTAKE PERIOD**
February, July

**MODE OF STUDY**
Coursework

**TOTAL 2015 TUITION FEE**
AUD $26,900

**APPLY**
Online at www.uwa.edu.au/applynow

**MORE INFORMATION**
www.studyat.uwa.edu.au/gd/adv-social-work

**ADMISSION REQUIREMENTS**
A relevant bachelor’s degree of this University, or equivalent as recognised by the Faculty; or

The Graduate Certificate in Social Work, Graduate Certificate in Child Protection Practice or Graduate Certificate in Mental Health Practice of this University, or equivalent as recognised by the Faculty;

At least two years’ experience as a professionally qualified social worker;

Minimum English language competence – see page 106 for more information

**Course description:** This course is open to social work graduates with a minimum of two years’ experience as a professional social worker. It enables practising social workers to build on their knowledge of advanced social work theory and practice, and research methods.
It is possible to complete some master’s by coursework and master’s by coursework and dissertation degrees within 1.5 years rather than the standard 2 years, if you have completed an undergraduate degree in a related area. Please see the Coursework Degrees tables on pages 103 to 105.

World-class research, excellent teaching and an inspiring student experience are the hallmarks of studying science at UWA.

As a Faculty of Science student you will be part of a community of researchers and fellow students doing science that makes a difference. You will enjoy UWA’s affiliations with industry, the professions, government and the community.

UWA ranks first in Australia for Life and Agricultural Sciences and second for Chemistry; and the subject areas of Psychology or Earth and Marine Sciences are ranked in the world’s top 40 institutions. Our Science Faculty is internationally renowned for excellence in teaching and research. Our strong research focus informs and becomes a part of our teaching, which ensures our students are at the forefront of scientific development.

We have a leading role in the Square Kilometre Array (SKA) project, which will expand our understanding of the universe and drive technological development world-wide.

As a faculty, we focus on bringing about meaningful change for the world and humanity in five key areas:

» Feeding the world
» Preventing, diagnosing and treating disease
» Furthering human knowledge and serving humanity
» Harnessing resources and energy for a sustainable future
» Restoring and maintaining balance in our natural environment

UWA is home to a range of exceptional facilities that will enhance your postgraduate experience. For example the Centre for Microscopy Characterisation and Analysis provides world-class microscopy and microanalysis technologies and expertise; the University’s Future Farm, where new and highly innovative approaches to sustainable agriculture and the environment take place; and CELLCentral, an integrated, state-of-the-art histology and biological imaging laboratory.

There is a diverse range of research strengths across the scientific disciplines in our nine schools. Researchers and students are also able to draw upon the expertise of more than 20 Research Centres and five Institutes.

We encourage you to find out more about the research and study options available within our Faculty.

Faculty at a glance

The Faculty of Science is internationally renowned for excellence in teaching and research and ranked 1st in Australia for Life and Agricultural Sciences and 2nd for Chemistry by the prestigious Academic Ranking of World Universities.

Nine Schools, more than 20 Research Centres and Five Institutes.

Home to more than 5000 students from across Australia and overseas.

More than 800 staff members, many of whom are world-class research leaders. 87.8% of academic staff have a Doctoral qualification.

Researchers from the Faculty of Science have been recognised as some of the most influential scientific minds in the world according to Thomson Reuters 2014 Highly Cited Researchers.

Agricultural and Resource Economics
Key research areas:
Environmental and natural resource economics; agricultural systems and economics; adoption of new management practices; and nonmarket valuation.

Anatomy, Physiology and Human Biology
Key research areas:
Cell and developmental biology; endocrine and reproductive biology; human biology; neuroscience; physiology and sleep science.

Animal Biology
Key research areas:
Animals and industry; animal structure and function; ecology; evolutionary biology; experimental and regenerative neurosciences; neuroecology and wildlife management. The School has strong links to the Oceans Institute.

Chemistry and Biochemistry
Key research areas:
Biochemistry; molecular biology; genetics; chemistry and nanotechnology.

Earth and Environment
Key research areas:
Geosciences; geography and planning; soil science; and environmental science. The School has strong links to the Institute of Agriculture, Centre for Microscopy Characterisation and Analysis, and the Oceans Institute. The School hosts significant research centres in the Centre for Exploration Targeting; the Centre for Regional Development; the Planning and Transport Research Centre; and the Centre for Petroleum Geoscience and CO2 Sequestration.

Physics
Key research areas:
Astronomy and astrophysics; gravitational waves; atomic, molecular and surface physics; experimental quantum dynamics; biomagnetics; bioacoustics; medical physics; precision and quantum metrology; quantum dynamics and computation; gradiometry; field theory and quantum gravity; and spintronics and magnetisation dynamics.

Plant Biology
Key research areas:
Crops and pastures; marine and terrestrial ecosystems; cell and molecular biology; biochemistry; genetics and breeding; ecophysiology; agronomy; and ecology. The School has strong links with the Oceans Institute and the Institute of Agriculture.

Psychology
Key research areas:
Neuropsychology; clinical psychology; industrial and organisational psychology. Cognition, Perception, and Social Change.

Sport Science, Exercise and Health
Key research areas:
Biomechanics; exercise physiology; sport psychology; motor learning and control; physical activity and health.
FACULTY OF SCIENCE

INTERNATIONAL POSTGRADUATE PROSPECTUS 2015–2016

The University of Western Australia |
Master of Science

UWA COURSE CODE: 70630
CRICOS CODE: 058945E
DURATION: 1 year
INTAKE PERIOD: February, July
MODE OF STUDY: Thesis and coursework
2015 TUITION FEE: AUD $34,000
APPLY: Online at www.uwa.edu.au/applynow
MORE INFORMATION: www.studyat.uwa.edu.au/mr/science

ADMISSION REQUIREMENTS
A relevant bachelor’s degree with honours of this University, with a weighted average of at least 70% in those units for which the results contribute to the calculation of the honours classification, or equivalent as recognised by the Faculty;
Minimum English language competence – see page 106 for more information

NOTE
Students must indicate subject area and have supervisor approval at time of application

Course description: Through a major research project and high level coursework units, students in the Master of Science increase their knowledge in the subject area studied at undergraduate level. Subject areas for the Master of Science include but are not limited to: Agricultural Economics; Agricultural Science; Animal Science; Botany; Climate Studies; Conservation Biology; Ecology and Evolution; Environmental Economics; Environmental Management; Environmental Science; Genetics and Breeding; Geography; Geoscience; Hydrogeology; Marine Science; Mineral Geoscience; Natural Resource Management; Plant Production Science; Soil Science and Land Rehabilitation; Urban and Regional Planning; Water Management and Hydrology; and Zoology.

Master of Agricultural Science

UWA COURSE CODE: 72510
CRICOS CODE: 074945E
DURATION: 1.5 – 2 years
INTAKE PERIOD: February, July
MODE OF STUDY: Coursework or coursework and dissertation
2015 TUITION FEE: AUD $34,000
APPLY: Online at www.uwa.edu.au/applynow
MORE INFORMATION: www.studyat.uwa.edu.au/m/agri-sci

ADMISSION REQUIREMENTS
A bachelor’s degree with a relevant major, or equivalent as recognised by the Faculty;
Minimum English language competence – see page 106 for more information

NOTE
Students may apply to undertake a research project within this degree.
Minimum course duration: 1.5 years full-time comprising 72 credit points of taught units and 24 points of admission credit.
Maximum course duration: 2 years full-time comprising 96 points of taught units.

Students with a bachelor’s degree or major in a related area of study will be granted up to 24 points credit in recognition of prior learning.
Students requiring more than 72 credit points will receive course advice specifying additional units.

Course description: The challenges of a rapidly growing population, climate change, and the limitations of land and fresh water all impact on the ability of agriculture to meet the demand for food, fibre and fuel. Agricultural Science provides the research, technology and information for the sustainable, profitable and ethical development of the agricultural industry. Studies in agriculture include soil science, genetics, cropping and pasture systems, soil-plant interaction, livestock production, agricultural economics and agribusiness. Articulation is available within this study area. For more information, see page 9.

Specialisations
Students nominate a specialisation on application:
- Agricultural Economics
- Agricultural Systems
- Genetics and Breeding
- Soil Science
Graduate Diploma in Anatomical Sciences

UWA COURSE CODE 51300
CRICOS CODE 049390K
DURATION 1 year
INTAKE PERIOD February, July
MODE OF STUDY Coursework
TOTAL 2015 TUITION FEE AUD $34,000
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/gd/anatomical-sci

Master of Anatomical Sciences

UWA COURSE CODE 53510
CRICOS CODE 064875G
DURATION 2 years
INTAKE PERIOD February, July
MODE OF STUDY Coursework and dissertation
2015 TUITION FEE AUD $34,000
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/m/anatomical-sci

Course description: This Master’s degree course makes available advanced training in the subject area of anatomical sciences. It enables students to upgrade their knowledge and develop investigative skills by participating in projects in different areas in anatomical sciences, critical reviews of literature, collection of material (field, experimental or literature) and the processing, analysis and evaluation of data. Articulation is available within this study area. For more information, see page 9.

Master of Biological Science

UWA COURSE CODE 72520
CRICOS CODE 074948B
DURATION 1.5 – 2 years
INTAKE PERIOD February, July
MODE OF STUDY Coursework or coursework and dissertation
2015 TUITION FEE AUD $34,000
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/m/biological-sci

ADMISSION REQUIREMENTS

A bachelor’s degree with a relevant major, or equivalent as recognised by the Faculty;
Minimum English language competence – see page 106 for more information

NOTE

Students may apply to undertake a research project within this degree. Minimum course duration: 1.5 years full-time comprising 72 credit points of taught units and 24 points of admission credit.
Maximum course duration: 2 years full-time comprising 96 points of taught units.

Course description: Western Australia is a marine and terrestrial biodiversity hotspot. Up to 80% of the region’s marine fish and invertebrates are unique to the area, which makes Western Australia the ideal living laboratory for studies in Biological Science. This course gives students an understanding of the molecular evolution, structure, physiology, reproduction, behaviour and ecology of organisms, and the skills to apply this knowledge to the management of natural systems and the species they support. Articulation is available within this study area. For more information, see page 9.

Specialisations

Students nominate a specialisation on application:
- Marine Biology
- Plant Conservation Biology
- Zoology

Course description: This unique course is designed for experienced art practitioners, scientists, or humanities scholars who wish to engage with creative bioresearch. The course focuses on recent advances in the life sciences, both in theory and practice. Emphasis is placed on critical thought, ethical and cultural issues and cross-disciplinary experimentation in art and science. Students have access to scientific laboratories, techniques and expertise. Students will take both existing art and science units and core SymbioticA units that include a major project and dissertation.

Master of Biological Arts – New in 2015

UWA COURSE CODE 71530
CRICOS CODE 083855K
DURATION 1.5 – 2 years
INTAKE PERIOD February, July
MODE OF STUDY Coursework and dissertation
2015 TUITION FEE AUD $34,000
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/m/biological-arts

ADMISSION REQUIREMENTS

A relevant Bachelor’s degree in the sciences, arts or fine arts, or equivalent as approved by the Faculty;
Minimum English language competence – see page 106 for more information

NOTE

Students with a bachelor’s degree or major in a related area of study will be granted up to 24 points credit in recognition of prior learning.
Students requiring more than 72 credit points will receive course advice specifying additional units.

Master of Biomedical Science  – New in 2015

UWA COURSE CODE  71520
CRICOS CODE  083856J
DURATION  1.5 – 2 years
INTAKE PERIOD  February, July
MODE OF STUDY  Coursework or coursework and dissertation
2015 TUITION FEE  AUD $34,000
APPLY  Online at www.uwa.edu.au/applynow
MORE INFORMATION  www.studyat.uwa.edu.au/m/biomedical-sci

ADMISSION REQUIREMENTS
A bachelor’s degree with a major in a biomedical science or health science discipline, or equivalent as recognised by the Faculty;
Minimum English language competence – see page 106 for more information

NOTE
Students may apply to undertake a research project within this degree. Minimum course duration: 1.5 years full-time comprising 72 credit points of taught units and 24 points of admission credit. Maximum course duration: 2 years full-time comprising 96 points of taught units.

Students with a bachelor’s degree or major in a related area of study will be granted up to 24 points credit in recognition of prior learning.
Students requiring more than 72 credit points will receive course advice specifying additional units.

Course description: Biomedical Science encompasses a range of biological, medical and health-related disciplines that underpin advances crucial to human health and wellbeing. This course draws on a range of disciplines to understand normal human biology (including our evolutionary history) and the cause and treatment of human disease. It provides students with the opportunity to pursue advanced study in their selected biomedical discipline, with emphasis on cutting-edge research and its translation to healthy living and the treatment of disease.

Specialisations
Students nominate a specialisation on application:
- Biochemistry and Molecular Biology
- Human Biology
- Neuroscience

Master of Biotechnology – New in 2015

UWA COURSE CODE  71580
CRICOS CODE  083859F
DURATION  1.5 – 2 years
INTAKE PERIOD  February, July
MODE OF STUDY  Coursework or coursework and dissertation
2015 TUITION FEE  AUD $34,000
APPLY  Online at www.uwa.edu.au/applynow
MORE INFORMATION  www.studyat.uwa.edu.au/m/biotechnology

ADMISSION REQUIREMENTS
A bachelor’s degree with a relevant major, or equivalent as recognised by the Faculty;
Minimum English language competence – see page 106 for more information

NOTE
Students may apply to undertake a research project within this degree. Minimum course duration: 1.5 years full-time comprising 72 credit points of taught units and 24 points of admission credit. Maximum course duration: 2 years full-time comprising 96 points of taught units.

Students with a bachelor’s degree or major in a related area of study will be granted up to 24 points credit in recognition of prior learning.
Students requiring more than 72 credit points will receive course advice specifying additional units.

Course description: Biotechnology is rapidly becoming central to our lives. The use of plants, animals and bacteria, enhanced by areas such as genetics and genomics gives rise to new food, fibre and chemical production routes, and new strategies for environmental protection and stewardship. The course is unique in Australia – it provides state-of-the-art biotechnology combined with training in enterprise and commercialisation, and has direct interaction with industry.

Specialisations
Students nominate a specialisation on application:
- Biochemistry and Molecular Biology
- Environmental Biotechnology
- Genetics and Breeding
- Genetics and Genomics
Master of Clinical Audiology

Course description: Audiology is the clinical science involving the prevention, assessment and rehabilitation of hearing loss and associated communication disorders. The course provides students with extensive supervised clinical placements in a variety of workplace settings. Graduates are eligible for full membership of the Audiological Society of Australia.

The Master of Clinical Audiology has an intake every second year, in even years. The next intake of students will commence in January 2016. Applications will open in September 2015.

Doctor of Philosophy and Master of Clinical Audiology

Course description: The University of Western Australia offers a combined PhD and Master’s program in Audiology which can be completed over four years. Audiology is the clinical science involving the prevention, assessment and rehabilitation of hearing loss and associated communication disorders.

Graduate Diploma in Clinical Neuropsychology – New in 2015

Course description: This Graduate Diploma serves as a bridging degree to allow individuals who are qualified as Clinical Psychologists with the Psychology Board of Australia, and have completed at least a Masters Degree or equivalent in Clinical Psychology, to up-skill in Clinical Neuropsychology, allowing them eligibility for endorsement as a Clinical Neuropsychologist with Australian Health Practitioner Regulation Agency (AHPRA).

The Graduate Diploma in Clinical Neuropsychology is available full-time, including to international student visa holders, provided they have the requisite academic background. Student visa holders will require Faculty assessment to assess their academic background to ascertain if they qualify for the 1 year full time course.

Doctor of Philosophy and Master of Clinical Neuropsychology

Course description: Students take units in basic neuroscience and clinical psychology, and in the methods, findings, and theories of clinical neuropsychology. The key feature of this combined program is the emphasis that it places on enabling students to appreciate and capitalise upon the exciting synergies between practice and research in clinical neuropsychology. This is achieved through the integration of clinical skill development and research training within each of the three interlaced components of the program: coursework, placement and the thesis.
Graduate Diploma in Clinical Psychology – New in 2015

Course description: This Diploma serves as a bridging degree to allow individuals who are qualified as Clinical Neuropsychologists with the Psychology Board of Australia, and have completed at least a Masters Degree or equivalent in Clinical Neuropsychology, to up-skill in Clinical Psychology, allowing them eligibility for endorsement as a Clinical Psychologist with the Psychology Board of Australia/Australian Health Practitioner Regulation Agency (AHPRA).

The Graduate Diploma in Clinical Psychology is available full-time, including to international student visa holders, provided they have the requisite academic background. Student visa holders will require Faculty assessment to assess their academic background to ascertain if they qualify for the 1 year full time course.

Course description: Students take units in basic neuroscience and clinical psychology, and in the methods, findings, and theories of clinical neuropsychology. The key feature of this combined program is the emphasis that it places on enabling students to appreciate and capitalise upon the exciting synergies between practice and research in clinical neuropsychology. This is achieved through the integration of clinical skill development and research training within each of the three interlaced components of the program: coursework, placement and the thesis.

Master of Ecotourism – New in 2015

Course description: The Master of Ecotourism provides you with the knowledge and skills needed to participate in the growing ecotourism industry. A distinctive feature of the course is that it is delivered in Albany, in the South-West of Western Australia.

Master of Environmental Science

Course description: An interdisciplinary approach to problem solving is essential in this field. This degree includes biological and earth sciences and studies in environmental planning and management. It will prepare you to deal with issues such as climate change, land rehabilitation, water resource management and air and water pollution. For more information, see page 9.

Specialisations

Students nominate a specialisation on application:

- Environmental Management
- Geographic Information Science and Environmental Management
- Land and Water Management
- Marine and Coastal Management
Graduate Diploma in Forensic Science

Course description: Graduate studies in Forensic Science focus on the scientific methods for investigating crime, whilst also addressing the needs of forensic investigations within allied industries. The suite of units available provides an introduction to many disciplines including DNA, entomology, anthropology and forensic chemistry. In addition to these units, the masters course also includes three units from another discipline area, such as Business. Master's students also undertake a research project in their second year. Articulation is available within this study area. For more information, see page 9.

Specialisations

Students nominate a specialisation on application:

- Forensic Science
- Forensic Anthropology
- Odontology (offered only to those students with dental qualifications)

Graduate Diploma in Exercise Rehabilitation

Course description: This course offers students the opportunity to gain a qualification in a specific area of professional training. It is designed to provide the knowledge and expertise to specialise in the delivery of exercise for the prevention and management of chronic diseases and injuries.

Successful completion will satisfy the requirements necessary for specialist Exercise Physiologist accreditation by Exercise and Sports Science Australia.

Master of Exercise Science (Coursework)

Course description: This Master's program is aimed at students wishing to undertake advanced study or research majors in one of the sub-discipline areas within exercise science. There is a choice of postgraduate units within biomechanics; motor control and development; exercise physiology and biochemistry; health behaviour and performance psychology and exercise rehabilitation. Articulation is available within this study area. For more information, see page 9.
Doctor of Philosophy and Master of Forensic Science

**UWA COURSE CODE**: 00880  
**CRICOS CODE**: 040788E  
**DURATION**: 4 years  
**INTAKE PERIOD**: February  
**MODE OF STUDY**: Coursework only and thesis only  
**2015 TUITION FEE**: AUD $34,000  
**APPLY**: Online at www.uwa.edu.au/applynow  
**MORE INFORMATION**: www.studyat.uwa.edu.au/m/forensic-sci

**ADMISSION REQUIREMENTS**

A PhD proposal approved by the Board of the Graduate Research School; or

An honours degree of at least 2A level or equivalent and have completed the first year of the course leading to the degree of Master of Forensic Science;

Minimum English language competence – see page 106 for more information.

**Course description**: This course enables students to undertake a combined PhD (in their chosen discipline) and Master of Forensic Science. Articulation is available within this study area; for more information, see page 9.

Master of Geographic Information Science – New in 2015

**UWA COURSE CODE**: 71570  
**CRICOS CODE**: 083877D  
**DURATION**: 1.5 – 2 years  
**INTAKE PERIOD**: February, July  
**MODE OF STUDY**: Coursework or coursework and dissertation  
**2015 TUITION FEE**: AUD $34,000  
**APPLY**: Online at www.uwa.edu.au/applynow  
**MORE INFORMATION**: www.studyat.uwa.edu.au/m/geo-info-sci

**ADMISSION REQUIREMENTS**

A bachelor’s degree with a relevant major, or equivalent as recognised by the Faculty;  

Minimum English language competence – see page 106 for more information.

**NOTE**

Students may apply to undertake a research project within this degree.

**Course description**: This course allows for the development of technical and research skills applicable to the range of disciplines relying on the use of spatial analytic techniques, equipping students with the skills necessary to compete in the spatial industry. It covers the applications of GIS and remote sensing technologies, cartography and geovisualisation, and spatial programming. It provides for a grounding in both theory and application and the implementation and management of GIS projects.

Master of Geoscience

**UWA COURSE CODE**: 72550  
**CRICOS CODE**: 074954D  
**DURATION**: 2 years  
**INTAKE PERIOD**: February, July  
**MODE OF STUDY**: Coursework  
**2015 TUITION FEE**: AUD $34,000  
**APPLY**: Online at www.uwa.edu.au/applynow  
**MORE INFORMATION**: www.studyat.uwa.edu.au/m/geoscience

**ADMISSION REQUIREMENTS**

A bachelor’s degree with a geology major, or equivalent as recognised by the Faculty;  

Minimum English language competence – see page 106 for more information.

**NOTE**

Students may apply to undertake a research project within this degree.

**Course description**: Geoscience is the study of our dynamic planet and aims to understand the origin and evolution of Earth, its ancient environments and climates, natural hazards and the formation of resources including petroleum, mineral deposits and groundwater. Knowledge of past and present earth processes is fundamental to predicting future environmental changes. This course develops students’ abilities to gather and interpret geological information for a wide range of applications. Articulation is available within this study area. For more information, see page 9.

Master of Health Science – New in 2015

**UWA COURSE CODE**: 71540  
**CRICOS CODE**: 083862M  
**DURATION**: 1.5 – 2 years  
**INTAKE PERIOD**: February, July  
**MODE OF STUDY**: Coursework  
**2015 TUITION FEE**: AUD $25,000  
**APPLY**: Online at www.uwa.edu.au/applynow  
**MORE INFORMATION**: www.studyat.uwa.edu.au/m/health-sci

**ADMISSION REQUIREMENTS**

A bachelor’s degree with a major in a biomedical or health science discipline that aligns with one of the specialisations of the Master’s program;  

Minimum English language competence – see page 106 for more information.

**NOTE**

Students may apply to undertake a research project within this degree.

**Course description**: This degree allows for the development of technical and research skills applicable to the range of disciplines relying on the use of spatial analytic techniques, equipping students with the skills necessary to compete in the spatial industry. It covers the applications of GIS and remote sensing technologies, cartography and geovisualisation, and spatial programming. It provides for a grounding in both theory and application and the implementation and management of GIS projects.
The degree encompasses a range of biomedical and health disciplines crucial to human health and wellbeing. These are complemented by a Public Health focus (i.e. health promotion, research, policy and administration). A practicum within a health related enterprise is a core component of this degree. This degree is taught by both the Faculties of Science and Faculty of Medicine, Dentistry and Health Sciences.

Specialisations
Students nominate a specialisation on application:
- Biochemistry and Molecular Biology
- Exercise and Health
- Human Biology
- Neuroscience

ADMISSION REQUIREMENTS
A bachelor’s degree with a relevant major, or equivalent as recognised by the Faculty;
Minimum English language competence – see page 106 for more information

NOTE
Students may apply to undertake a research project within this degree. Minimum course duration: 1.5 years full-time comprising 72 credit points of taught units and 24 points of admission credit.
Maximum course duration: 2 years full-time comprising 96 points of taught units.

Students with a bachelor’s degree or major in a related area of study will be granted up to 24 points credit in recognition of prior learning.
Students requiring more than 72 credit points will receive course advice specifying additional units.

Course description: Hydrogeology deals with the distribution, flow and interaction of groundwater with the Earth including the hydrosphere, biosphere and lithosphere. The subject investigates the chemical, physical and biological interactions occurring between water, soils/rocks, the environment and society. This course develops students’ abilities to deal with topics such as groundwater dynamics, exploration, drilling and aquifer tests, sustainable allocation of groundwater, contamination and computer modelling. Articulation is available within this study area. For more information, see page 9.

ADMISSION REQUIREMENTS
A bachelor’s degree with honours in Psychology, or equivalent as recognised by the Faculty;
Minimum English language competence – see page 106 for more information

NOTE
A personal statement, CV and two referees are also required for this application.

Course description: Industrial and Organisational Psychology is a specialist area that applies psychological knowledge and skills to workplaces with the aim of improving...
organisational effectiveness and the quality of work life. This two-year course includes nine coursework units, a research project, and 1000 hours of practical placement spread over three different settings.

Doctor of Philosophy Master of Industrial and Organisational Psychology

UWA COURSE CODE 54580
CRICOS CODE 077709D
DURATION 4 years
INTAKE PERIOD February
MODE OF STUDY Coursework only and thesis only
2015 TUITION FEE AUD $32,500
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/c/indust-org-psych

ADMISSION REQUIREMENTS
A PhD proposal approved by the Board of the Graduate Research School (the Board); or
An honours degree in psychology of at least 2A level or equivalent;
Minimum English language competence – see page 106 for more information

NOTE
A personal statement, CV and two referees are also required for this application.

Course description: The course combines doctoral research with the coursework component of the Master of Industrial and Organisational Psychology. Industrial and Organisational Psychology is a specialist area that applies psychological knowledge and skills to workplaces, with the aim of improving organisational effectiveness and the quality of work life.

The psychology degree component includes nine coursework units, a research project that is roughly half the load for the second year, and 1000 hours of practical placement spread over three settings. Articulation is available within this study area. For more information, see page 9.

Master of International Development – New in 2015

UWA COURSE CODE 71550
CRICOS CODE 083850D
DURATION 1.5 – 2 years
INTAKE PERIOD February, July
MODE OF STUDY Coursework or coursework and dissertation
2015 TUITION FEE AUD $32,500
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/m/int-development

ADMISSION REQUIREMENTS
A bachelor’s degree with a relevant major, or equivalent as recognised by the Faculty;
Minimum English language competence – see page 106 for more information

NOTE
Students may apply to undertake a research project within this degree.
Minimum course duration: 1.5 years full-time comprising 72 credit points of taught units and 24 points of admission credit.
Maximum course duration: 2 years full-time comprising 96 points of taught units.

Students with a bachelor’s degree or major in a related area of study will be granted up to 24 points credit in recognition of prior learning.
Students requiring more than 72 credit points will receive course advice specifying additional units.

Course description: The course addresses the challenges of achieving sustainable economic development on a global, national and local scale. It provides a comprehensive awareness of the development industry and its real-world applications in poverty reduction, project design and international organisations. Students are provided with a grounding in international development concepts, theories and approaches as well as the analytical and practical skills needed to engage with the complex challenges of contemporary international development. Students have the flexibility to either specialise in a particular area of interest, or to develop core skills and knowledge across three areas of specialisation.

Specialisations
Students nominate a specialisation on application:
- Economics of Development
- Development Policy and Practice
- Politics and Development
Master of Ore Deposit Geology

Course description: This course provides a high-quality, advanced education in the geology and evaluation of ore deposits. It is designed for geologists with different levels of professional experience and offers a world-class education from international and Australian experts; an opportunity to improve geological, computing, exploration and management skills; and includes hands-on practical experience, field excursions and research. Units are taught by four institutions: The University of Western Australia, The University of Tasmania, James Cook University and Curtin University of Technology.

Master of Physics

Course description: The Master of Physics consists of an equal combination of advanced coursework and a research project and dissertation. The research project is undertaken as part of an internationally recognised research group. Students develop a combination of high-level research, analytical and problem-solving skills which are highly valued by industry and government employers. For students wishing to continue to a PhD, the Master of Physical Science provides an outstanding preparation.

Specialisations

Students nominate a specialisation on application:
- Astronomy and Astrophysics
- Computational Physics
- Experimental Physics
- Medical Physics
- Theoretical Physics

Graduate Diploma in Sport and Recreation Management

Course description: Students enhance their knowledge and develop skills in preparation for work in the sport and recreation industry. Students learn about the psychology of sport and exercise consumers and about service marketing practices in sport and recreation. Accounting practices and ethical considerations for work in the industry are also developed. Students undertake research in relation to sport and exercise businesses and obtain additional learning experiences from elective units offered in the course.

ADMISSION REQUIREMENTS
A bachelor’s degree with a relevant major, or equivalent as recognised by the Faculty; or
Minimum English language competence – see page 106 for more information

NOTE
Students may apply to undertake a research project within this degree.
Minimum course duration: 1.5 years full-time comprising 72 credit points of taught units and 24 points of admission credit.
Maximum course duration: 2 years full-time comprising 96 points of taught units.

Students with a bachelor’s degree or major in a related area of study will be granted up to 24 points credit in recognition of prior learning.
Students requiring more than 72 credit points will receive course advice specifying additional units.

Course description: Urban and Regional Planning focuses on some of the major challenges facing society, including the population explosion, rapid urbanisation, poverty and homelessness, land use conflict, cultural diversity, economic development, and ecological sustainability. Students are provided with the knowledge and skills to help resolve major urban and regional problems, and will undertake a practicum. Ultimately, graduates will contribute to the creation of liveable communities, vibrant economies and sustainable places.

Our teaching is supported by the world class research of the Centre for Regional Development and the Planning and Transport Research Centre. UWA also has strong links with the Planning Institute Australia (WA).

Graduate Diploma in Work Health and Safety

</table>

ADMISSION REQUIREMENTS
A bachelor’s degree with a relevant major, or equivalent as recognised by the Faculty; or
A bachelor’s degree from a recognised tertiary institution and at least two years’ full-time relevant professional experience as determined by the Faculty on the recommendation of the course coordinator;
Minimum English language competence – see page 106 for more information

Course description: This course focuses on developing knowledge and skills in the area of Work Health and Safety (WHS). Specifically, the scientific, behavioural, legal and business aspects of WHS are addressed. It provides the science behind policy and practice and involves opportunities for students to network with industry representatives and participate in work health and safety teams through practicum placement. The course meets the requirements for professional membership in a number of organisations.
The following programs are available to candidates who are applying to study while continuing to live overseas. The mode of delivery for these degrees is mainly online, though several include a residential component.

These programs are not available to students entering Australia on an international student visa.

Postgraduate study online and through multimode programs can only be undertaken by coursework. Programs with this study mode include:

- Graduate Certificate in Adult Sleep Science
- Graduate Diploma in Sleep Science
- Graduate Diploma in Dental Sleep Medicine

For detailed course information visit UWA’s Future Students website [www.studyat.uwa.edu.au](http://www.studyat.uwa.edu.au)

**Graduate Certificate in Adult Sleep Science**

<td>Online at <a href="http://www.uwa.edu.au/applynow">www.uwa.edu.au/applynow</a></td>
</tr>
</tbody>
</table>

**ADMISSION REQUIREMENTS**

- A bachelor’s degree in a relevant subject area, or equivalent as recognised by the Faculty; or
- a nursing or allied health degree of this University or another recognised institution; or
- a level of health-related education and a duration and level of professional experience which, in the opinion of the Faculty, would enable the applicant to complete the course; and
- a current National Police Certificate or Criminal History Record Check, or equivalent certification, indicating no criminal conviction.

- Currency of National Police Certificate is 12 months.

**Course description**: This course provides students with an understanding of sleep and circadian biology and the skills to use sophisticated equipment and instrumentation in order to perform laboratory-based and portable sleep studies as well as apply different protocols to sleep monitoring and perform basic scoring and analysis of sleep studies. Online and laboratory-based units are used to synthesise knowledge and ensure translation of this knowledge into practical competencies.

Two online units are completed in the first semester. Students will need to be in Perth for two weeks in June/July to complete the intensive practical portion of the two units that follow.

**Core units**:

- Fundamentals in Sleep Technology
- Fundamentals in Sleep Biology
- Sleep Technology in Practice
- Sleep Biology in Practice

Students interested in this program should contact:

School of Anatomy and Biology

Telephone: +61 8 6488 3303

Email: Enquiries-aphb@uwa.edu.au

Website: [www.aphb.uwa.edu.au](http://www.aphb.uwa.edu.au)
Graduate Diploma in Sleep Science

UWA COURSE CODE 52320
DURATION 1 year
INTAKE PERIOD February full time or July part time
MODE OF STUDY Coursework; online and residential
2015 TUITION FEE AUD $24,340
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/gd/sleep-sci

ADMISSION REQUIREMENTS
A bachelor's degree in a relevant subject area, or equivalent as recognised by the Faculty; and
a current National Police Certificate or Criminal History Record Check, or equivalent certification, indicating no criminal conviction.

Course description: The Graduate Diploma in Sleep Science provides advanced competencies for a sleep technologist, based on a higher order of theoretical content than the certificate. The course provides students with advanced practical skills in sleep scoring and application of therapies for sleep disorders and practical skills in management of a sleep laboratory.

The Graduate Diploma in Sleep Science articulates with the Graduate Certificate in Adult Sleep Science. Students who hold the Graduate Certificate in Paediatric Sleep Science are required to take an additional unit in Adult Sleep Science.

Course structure: The course comprises eight units: four units from the Graduate Certificate in Adult Sleep Science, and four units designed to provide advanced competencies for a sleep technologist.

Core units:
- Advanced Competencies in Sleep Science
- Research and Biostatistics for Sleep Science
- Advanced Sleep Technology and Laboratory Management
- Advanced Sleep Scoring.

Each online unit, consisting of six modules, can be completed over a 12-week period in either the first or second half of the year. Four practical units are delivered by a combination of on-line and practical work, each consisting of three modules. Students must be in Perth to attend the practical components of these units delivered over two 2-week periods, one in July and one in November / December. These intensive practical units provide students with hands-on experience in a sleep laboratory in order to synthesise knowledge and ensure translation of the theoretical.

Graduate Diploma in Dental Sleep Medicine

UWA COURSE CODE 52320
DURATION 2 years part time (usual mode) or 1 year full time
INTAKE PERIOD February, July
MODE OF STUDY Coursework; online.
2015 TUITION FEE AUD $34,000
APPLY Online at www.uwa.edu.au/applynow
MORE INFORMATION www.studyat.uwa.edu.au/courses/graduate-diploma-in-dental-sleep-medicine

ADMISSION REQUIREMENTS
A Bachelor of Dental Surgery of this University, or equivalent as recognised by the Faculty; and
two years general dental practice; and
registration to practice Dentistry in country of residence and
Professional Indemnity Insurance to the value of at least AUD $1 million (or equivalent) and
For International Students a current National Police Certificate or equivalent from their country of residence, indicating no criminal conviction.

Course description: This course is specifically aimed at providing dental practitioners with formal training in sleep medicine to complement clinical training in the use of oral devices used in the treatment of sleep apnoea. In addition to theoretical knowledge, students assess and report the progress of actual cases.

Although this course is completely online, students are assumed to have access to a sleep laboratory or clinic near their home or practice, where they can develop a relationship with a local respiratory physician or dedicated sleep physician who can act as a mentor as well as facilitate sleep laboratory visits. The usual mode of study is part time to enable students to continue with their clinical practice while studying.

Students complete 8 units involving both the study of sleep and the treatment of sleep disorders.
- Fundamentals of Sleep Biology
- Fundamentals of Dental Sleep Medicine
- Fundamentals of Sleep Technology
- Oral Appliance Therapy in Sleep Disordered Breathing
- Research and Biostatistics for Dental Sleep Medicine
- Dental Sleep Medicine in Practice
- Advanced Sleep Disorders and Anatomy of Sleep
- Advanced Competency in Dental Sleep Medicine

HELP WITH ENGLISH LANGUAGE SKILLS

www.celt.uwa.edu.au

Some international students may need specialised tuition to meet the University’s minimum English language requirements. The University of Western Australia offers a choice of English language programs through the Centre for English Language Teaching (CELT) to prepare international students for tertiary academic study.

Centre for English Language Teaching
The Centre for English Language Teaching (CELT) is an integral part of the University and offers accredited ELICOS programs in General English, Business English and English for Academic Purposes, as well as preparation for internationally recognised examinations.

The Centre for English Language Teaching is also a testing centre for the IELTS and TOEFL internet-based (iBT) examinations.

Academic English and Study Skills Bridging Course
The Academic English and Study Skills Bridging Course has been designed for international students who have met the academic entry requirements of the University but do not have the required level of English language proficiency. The program is also suitable for students with academic entry into UWA who need to further develop their language ability and confidence before commencing their tertiary studies.

The Bridging Course helps students to:
- improve English language skills to the level required by UWA;
- learn about the organisation and language of various types of academic texts;
- develop knowledge of the language of their chosen discipline;
- develop an understanding of Australian academic culture;
- develop a high level of analytical and reflective skills in an Australian academic context;
- develop strategies to attribute literary sources appropriately;
- develop the capacity to be an autonomous learner at an Australian university with the confidence to participate freely and appropriately in academic situations.

A 70% pass in the Bridging Course meets the University’s English Language requirement for most undergraduate and postgraduate courses. Some require a higher level pass – please consult page 27 for these exceptions.
### Bridging course dates

#### SEMESTER 1, 2015
- **Module 1**
  - Start date: 23 January
  - End date: 2 April
- **Study break**
  - Start date: 6 April
  - End date: 16 April
- **Module 2**
  - Start date: 17 April
  - End date: 26 June

#### SEMESTER 2, 2015
- **Module 1**
  - Start date: 10 July
  - End date: 18 September
- **Study break**
  - Start date: 21 September
  - End date: 1 October
- **Module 2**
  - Start date: 2 October
  - End date: 11 December

#### SUMMER BRIDGING COURSE 2014 – 2015
- **Term 1**
  - Start date: 16 November
  - End date: 18 December
- **Study break**
  - Start date: 21 December
  - End date: 08 January 2015
- **Term 2**
  - Start date: 11 January 2015
  - End date: 12 February 2015

### Tuition

The tuition fees are AUD $480 per week for both the 10 and 20 week programs (i.e. it is AUD $4,800 tuition for the 10 week course and AUD $9,600 for 20 weeks).

---

1. If the entry requirements for tertiary courses are higher than 6.5 and nothing below 6.0, then entry into the 10-week Bridging Course will be no less than 0.5 lower for each individual band and for the overall score. Please refer to the CELT website for further information: www.celt.uwa.edu.au/courses/pathways.
Although admission requirements are subject to variation, applicants are usually expected to have a first class or upper second class honours degree or equivalent from an approved university.

Applicants may apply to commence at any time of the year as the programs do not run on a semester basis.

Before submitting an application, prospective postgraduate research students must contact a Graduate Research Coordinator in the appropriate school to discuss a research topic, the availability of a supervisor, eligibility for entry, resources and a research proposal.

The preliminary steps prior to submitting an application should include:

- Identify who will be your supervisor
  - For science students: If you are interested in pursuing a PhD in a science discipline, you should lodge an enquiry through the online form at www.science.uwa.edu.au/research/help-enquiry
  - For all other students: Where possible, talk to the Graduate Research Coordinator about the availability of supervision for the proposed field of study before lodging a formal application.

A list of the current Graduate Research Coordinators can be found at www.studyat.uwa.edu.au/postgrad/research/coordinators

You might like to read the profiles of some of our research leaders, who you may be interested in having as a supervisor for your studies.

- Prepare a research proposal
  - It is often useful to prepare a brief outline (maximum 250 words) of your proposed area of study to discuss with a prospective supervisor.

- Discuss the resources available to you
  - Find out what resources are available to you as a postgraduate research student, e.g. access to an office, computer, phone, email, printing and stationery, as these vary depending on the school in which you enrol.

  It is very important that you make this a topic of discussion during the application phase, so that you can begin with a realistic expectation of the facilities and resources available.

- Be informed
  - Spend some time looking through the University’s research website. There is a lot of useful information there for prospective research students, including how to prepare a research proposal and a copy of UWA’s research publications and expertise database www.studyat.uwa.edu.au/postgrad/research/preparation

Once you have completed these preliminary steps, the application procedure is as follows:

1. Submit an application via www.studyat.uwa.edu.au/postgrad/research/apply including:
   - A completed research application form for international students. The application form can be downloaded from the website
   - All certified documents as listed on the application form.
   - A research proposal.

Successful applicants will be sent an offer package electronically, which includes:
- A letter of offer
- Acceptance documents
- Other documents if appropriate

Please allow six to eight weeks to process.
The admissions process for prospective postgraduate coursework students includes:

1. Submit an online application to www.uwa.edu.au/myapplication that includes all necessary documentation specified in the admission requirements of your course. For full details on the admission requirements of your preferred course visit www.studyat.uwa.edu.au

   OR

2. Submit your application through a UWA Representative in your country. A complete list of representatives can be found at www.studyat.uwa.edu.au/international/agents

2. UWA will assess the application and if successful, you will be issued an offer package, which includes:
   - A letter of offer
   - Acceptance documents
   - Other documents if appropriate
   Please allow two to four weeks to process.

3. On receipt, complete, sign and return the acceptance documents together with payment or sponsorship details for the first semester and overseas health cover (visa length cover), either directly to UWA at www.uwa.edu.au/myapplication or via one of UWA’s official overseas representatives

4. UWA will issue a Confirmation of Enrolment (CoE) package that contains:
   - A letter of welcome which will include links to our pre-departure and on-campus accommodation guides
   - A Confirmation of Enrolment (CoE)

5. You will be required to make your own travel and student visa arrangements. UWA’s overseas representatives will also be able to help you with these arrangements if you need any additional advice or assistance. Please note that in some countries, student visas may be obtained electronically. Refer to www.immi.gov.au/students
